Before You Begin

This guide provides information you need to quickly use your new phone.

Firstly, verify with your system administrator that the IP network is ready for phone configuration. Also, be sure to read the Quick Start Guide which can be found in your phone package before you set up and use the phone. As you read this guide, keep in mind that some features are only configurable by your system administrator or determined by your phone environment. As a result, some features may not be enabled or may be operated differently on your phone. Additionally, the examples and graphics in this guide may not directly reflect what is displayed or is available on your phone screen.

Note
This guide mainly takes T27G phones as an example.

This user guide contains information for the following Yealink products:

- T29G IP phones
- T27G IP phones
- T23P IP phones
- T23G IP phones
- T21(P) E2 IP phones (including T21 E2 and T21P E2 IP phones)
- T19(P) E2 IP phones (including T19 E2 and T19P E2 IP phones)

Related Documentation
You can view more types of documents to make the phone to perform more functions.

You can obtain additional information on the following phones from Yealink Support:

- IP Phone T29G
- IP Phone T27G
- IP Phone T23P
- IP Phone T23G
- IP Phone T21(P) E2
- IP Phone T19(P) E2

The following types of related documents are available on each support page on Yealink support page:

- Release Notes, which details bug fixes and feature enhancements when an update is released.
- Quick Start Guide, which describes how to assemble your phone and configure the basic phone features.
- Wall Mount Installation Guide, which provides detailed instructions on how to use an optional wall mount bracket to mount your phone on the wall.
- Administrator Guide, which provides detailed information on how to configure phone features for the system administrator.
- Regulatory Notice, which provides information about all regulatory and safety guidance.

You can also view other user documents which provide descriptions and examples for phone settings and features on the Yealink support page.
Getting Started

Before you use your phone, take some time to get familiar with its features and user interface.

The terms "the phone" and "your phone" refer to any of the IP phones. Unless specifically noted in this guide, all phone models are operated in similar ways.

</table>
### NO. | Item | Description
---|---|---
9 | Speakerphone Key | Toggles the speakerphone (hands-free) mode or not.
10 | RD Key | Redials a previously dialed number.
11 | MESSAGE Key | Accesses your voice messages. The LED indicator glows green when receiving a new voice mail. The T19(P) E2 phones do not have a key light.
12 | CONF Key | Creates a conference with another party. The T23G/T23P/T21(P) E2/T19(P) E2 IP phones do not have CONF key.
13 | MUTE Key | Toggles the microphone on or off. The T23G/T23P/T21(P) E2 phones do not have MUTE key.
14 | Volume Key | Adjust the volume of handset, headset, speaker.
15 | Keypad keys | Allow you to enter numbers, letters, and special characters. If a menu item has an index number, you can use the keypad key to select the item.
16 | Speaker | Provides ringer and speakerphone audio output.
17 | Reversible Tab | Secures the handset in the handset cradle when the phone is mounted vertically. For more information on how to adjust the reversible tab, refer to [Yealink Wall Mount Quick Installation Guide for Yealink IP Phones](#).
18 | Hookswitch | Connects or disconnects the phone from the phone line. The hookswitch is automatically activated when a user lifts the handset from the cradle to get a dial tone.

### Power LED Indicator
The power LED indicator indicates the call, message and phone’s system status.

<table>
<thead>
<tr>
<th>LED Status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solid red</td>
<td>The phone is initializing.</td>
</tr>
<tr>
<td>Fast-flashing red (0.3s)</td>
<td>The phone is ringing.</td>
</tr>
<tr>
<td>Slowly-flashing red (1s)</td>
<td>The phone receives a voice mail or text message.</td>
</tr>
<tr>
<td>Solid red for 0.5s and off for 3s alternately</td>
<td>The phone enters the power-saving mode. It is only available on the T29G phones.</td>
</tr>
</tbody>
</table>

**Note**
The T19(P) E2 phone only has a yellow key light. The above introduces the default LED status. Your system administrator can configure the status of the power LED indicator.

### Line Key LED
The line key LED indicators are associated with the status of phone lines and features.

**Line key LED** (associated with the phone line)

<table>
<thead>

</table>

### Screen and Icons

The user screens and icon indicators can help you navigate and understand the important information on the phone’s status.

**Topics**

- Idle Screen
- Calls Screen
- Icons in the Status Bar
- Line Key Icons

### Idle Screen

The idle screen is made up of the status bar, line keys, and soft keys. The time & date in the status bar or middle of the screen varies by phone models.
Getting Started

- **Status Bar**: Display the default account, feature status icons, and the time. The status icons are displayed when features are activated.
- **Line Keys**: Display the information associated with the line keys and feature keys on the phone.
- **Page Icons**: The page icons appear only when you assign functionality to line key located in line key 11-27 on the T29G phones or line key 9-21 on the T27G phones.
- **Soft Keys**: Each soft key label indicates the action for the soft key below the screen.

**Related Topics**

- Icons in the Status Bar
- Changing the Default Account
- Customizing the Soft Keys

**Calls Screen**

All of your active and held calls are displayed on the calls screen. You can press up or down navigation key to switch among calls.

For T27G, the calls screen can display the local name or number. Check with your system administrator to find out if this feature is available on the phone. When there is an active call and a held call, the calls screen is shown below:
During a call, you can press the OK key to view the current time & date and phone status. The phone screen is shown below:

**Icons in the Status Bar**

The icons in the status bar help you easily get the current phone status, such as call and message status. Icons in the status bar vary by phone models.

Call Features

You can use the phone to place and answer calls, ignore incoming calls, transfer a call to someone else, conduct a conference call and perform other basic call features.

Topics

Changing the Default Account
Placing Calls
Answering Calls
Switching Among the Handset, Speakerphone and Headset Modes
Disabling Call Waiting
Silencing or Rejecting Incoming Calls
Ending Calls
Redialing a Call Automatically
Muting/Unmuting Audio
Keep Mute
Holding and Resuming Calls
Redirecting Incoming Calls
Transferring Calls
Conference Calls
Recording Using a USB Flash Drive
Multicast Paging

Changing the Default Account

If there are multiple registered accounts on the phone, you can place a call with the default account by default. For T29G phones, you can change it manually.

It is not available on the T19(P) E2 phones.

Procedure

1. Navigate to **Menu > Features > Others > Default Account**.
2. Select the desired account from the **Default Account** field.
3. Select **Save**.

Tips

From the idle screen, you can press the left or right navigation key to change the default account.

Placing Calls

You can use your phone like a regular phone to place calls in many ways easily.

Topics

Placing a Call from the Dialer
Placing Multiple Calls
Placing a Call with a Speed Dial Key
Placing a Call Back to the Last Incoming Number
Redialing a Number
Dialing a Hotline Number
Placing an International Call
Placing a Call from the Call History
Placing a Call from the Directory
Placing Calls to Google Contacts
Placing an Anonymous Call
Placing an Emergency Call from a Locked Phone

Placing a Call from the Dialer
The Dialer enables you to enter a number to place a call, and it displays a list of previously placed calls or contacts in your directory.

You can also select the desired contact from the search list, the placed call list or Directory.

**Note**
Your system administrator can configure the source list for searching and disable to display the placed call records.

**Procedure**
1. Do one of the following:
   - Start typing a phone number.
   - Select the desired line key (not supported on the T19(P) E2 phones).
   - Pick up the handset, press the Speakerphone key or the HEADSET key.
2. Enter a number or select a contact.
3. Select **Send**.

**Note**
Your system administrator can enable live dialpad feature, which enables your phone to automatically dial out the phone number after a period of time without selecting **Send**.

**Related Topic**
Switching Among the Handset, Speakerphone and Headset Modes

Placing Multiple Calls
When you are in a call, you can hold your current call and place a new call.

**Procedure**
1. Do one of the following:
   - Select a line key (not supported on the T19(P) E2 phones). The active call is placed on hold.
   - Press the HOLD key or **Hold** to place the original call on hold.
   - Select **New Call** (NewCall).
2. Enter the desired number or select a contact.
3. Select **Send**.

Placing a Call with a Speed Dial Key
You can quickly dial a number by using a Speed Dial key.

**Before You Begin**
If your system administrator has enabled the Favorites feature on the phone, you cannot manually set a Speed Dial key.
If you are using the T19(P) E2 phones, contact your system administrator for assistance setting a Speed Dial key for you.
Procedure
1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select SpeedDial from the Type field.
4. Select the desired line from the Account ID field.
5. Do one of the following:
   - (Optional.) Enter the string that will appear on the phone screen in the Label field. Enter the contact number you want to dial out directly in the Value field. You can also enter the contact number with the DTMF sequence that you want to send in the Value field. The contact number and DTMF sequence are separated by commas. One comma stands for 500 milliseconds. For example, 1234,,123# means the phone dials out the number 1234 first, then after the call is set up for 1 second, it sends the DTMF sequence 123# to the remote party.
   - On the T29G phones, highlight the Label or Value field. Press Directory (Dir) and select a desired contact from the Directory list.
6. Select Save.

Tip
By default, you can long press the desired line key to set it.

When the phone is idle, you can press the Speed Dial key to call a contact quickly. The phone calls a contact using the configured line by default. If you want to call a contact using another line, you can first press the line key, and then press the Speed Dial key.

Note
During a call, you can press the Speed Dial key to select a transfer mode. Check with your system administrator to find out if this feature is available on the phone.

Placing a Call Back to the Last Incoming Number
You can redial the last incoming number quickly by using a Recall key.

Before You Begin
If you are using the T19(P) E2 phones, contact your system administrator for assistance setting a Recall key for you.

Procedure
1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Recall from the Key Type field.
5. (Optional.) Enter the string that will appear on the phone screen in the Label field.
6. Select Save.

Tip
By default, you can long press the desired line key to set it.

When the phone is idle, press the Recall key to quickly redial the last incoming number.

Redialing a Number
The phone keeps a record of all the placed calls. You can recall the contact you recently called.
Procedure
1. Press the RD key.
   
   A record of Placed Calls is displayed on the phone screen.
2. Highlight the desired record, select Send.

Tip
Press the RD key twice to recall the contact you called.

Dialing a Hotline Number
When the phone is off-hook, it will dial out the hotline number automatically after the designated delay time.

Procedure
1. Navigate to Menu > Features > Hot Line.
   On the T29G phones, navigate to Menu > Features > Others > Hot Line.
2. Do one of the following:
   - Enter the desired number in the Hotline Number field.
   - Press Directory (Dir) and select a desired contact from the Directory list.
3. Enter the desired delay time (0-10 seconds) in the Hotline Delay field.
4. Select Save.

Placing an International Call
You can place calls to international phone numbers on your phone.

Procedure
1. Long press digit key 0 on the phone keypad until the plus sign (+) appears.
2. Enter the phone number with the country code.
3. Select Send.

Placing a Call from the Call History
You can place calls to contacts from the History list, which contains the calls that were recently placed, answered, missed, or forwarded.

Procedure
1. Press History or navigate to Menu > History.
   The phone screen displays all call records.
2. Select the desired call list.
3. Highlight a contact and select Send.

Placing a Call from the Directory
You can place a call to a contact directly from your directory.

Procedure
1. Select Directory (Dir) or navigate to Menu > Directory > Local Directory.
2. Select the desired contact group or All Contacts.
3. Highlight the desired contact and select Send.
   If the selected contact has multiple numbers, highlight the desired number, and select Send.

Searching for Contacts

Placing an Anonymous Call
You can hide your name and number when you place a call. As a result, the callee receives an anonymous call without caller identity.

Before You Begin
Contact with your system administrator to find out if this feature is available on your phone, and to get the anonymous call on code or off code if required.

Procedure
2. Select the desired line from the Line ID field (not supported on the T19(P) E2 phones).
   On the T29G phones, select the desired line.
3. Select Enabled from the Local Anonymous field.
4. (Optional.) Select the desired value from the Send Anony Code (Send Anonymous Code) field.
5. (Optional.) Enter the anonymous call on code and off code respectively.
6. Select Save.
7. Select the anonymous line to place a call.
   The callee is prompted with an incoming call from anonymity.

If the callee enables anonymous rejection feature, you may be prompted that the callee does not accept calls from an anonymous number.

Related Topic

Rejecting Anonymous Calls
**Placing Calls to Google Contacts**
You can call your Google Contacts from your phone.

**Procedure**
1. Navigate to Menu > Directory > Google Contact.
2. Highlight the desired contact and select Send.

**Placing an Emergency Call from a Locked Phone**
Once all keys are locked on the phone, you can only dial emergency numbers or authorized numbers that are set up by your administrator, such as 911.

**Procedure**
1. Do one of the following:
   
   * Select Emergency.
   
   The phone screen is shown below:

   ![Emergency Call Screen]

   Select an emergency number in the emergency number list.
   
   * Enter an emergency number.

2. Select Send

**Answering Calls**
When you receive a call, you can choose to answer it manually or automatically.

**Topics**
Answering a Call
Answering a Call When in a Call
Answering a Call Automatically

**Answering a Call**
When you receive an incoming call, the phone rings and the screen displays the information of the incoming call. You can choose to answer the incoming call.

**Procedure**
1. Do one of the following:
   
   * Pick up the handset.
   
   * Press the Speakerphone key.
- Press the HEADSET key.
- Press Answer or the line key that has the flashing green LED indicator.

*The call is answered in the speakerphone (hands-free) mode by default.*

**Related Topic**

Switching Among the Handset, Speakerphone and Headset Modes

**Answering a Call When in a Call**

You can answer a call when there is already an active call on your phone.

When you are in an active call and an incoming call arrives on the phone, a call waiting tone beeps, and the incoming call information is displayed.

![Incoming call notification](image)

**Procedure**

1. Select Answer.

*The active call is placed on hold, and the incoming call becomes active.*

**Note**

You can disable the call waiting feature to reject the incoming call automatically during a call.

**Related Topic**

Disabling Call Waiting

**Answering a Call Automatically**

Auto answer enables you to automatically answer an incoming call in speakerphone (hands-free) mode when your phone is idle.

**Note**

When you are in an active call and an incoming call arrives on the phone, the incoming call will not be automatically answered even if the auto answer is enabled.

*Your system administrator can configure the phone to automatically answer the incoming call after ending all calls.*

**Procedure**

1. Navigate to **Menu > Features > Auto Answer**.
2. Select the desired line (not supported on the T19(P) E2 phones).
3. Enable the **Auto Answer**.
4. Enable the **Auto Answer Mute**.
5. Select **Save**.
If the auto answer feature is enabled for the default account, the auto answer icon appears on the phone screen.

### Switching Among the Handset, Speakerphone and Headset Modes

You can select the desired mode before placing a call or can alternate among Speakerphone, headset, and handset modes during a call.

When using the headset, the LED indicator glows green. The T29G/T27G phones do not have key light.

**Procedure**

1. During the call, pick up the handset, press the Speakerphone key, or press the HEADSET key.
   
   For example, if you're using the handset, press the HEADSET key to switch to the headset, or press the Speakerphone key to switch to the speakerphone.

**Note**

Your system administrator can disable you to use the handset, speakerphone (Hands-free) or headset mode.

**Related Topic**

Headset

### Disabling Call Waiting

If the call waiting feature is disabled, when there is already a call, the new incoming call will be rejected automatically.

**Before You Begin**

Check with your system administrator if the call waiting off code is required. If required, get it from your system administrator.

**Procedure**

1. Navigate to Menu > Features > Call Waiting.
2. Select Disabled from the Call Waiting field.
3. (Optional.) Enter the call waiting off code respectively in the Off Code field.
4. Select Save.

### Silencing or Rejecting Incoming Calls

When you receive an incoming call, you can choose to silence or reject the call instead of answering.

**Topics**
Silencing a Call
Rejecting a Call Manually
Rejecting Anonymous Calls
Rejecting Calls with Do Not Disturb (DND)

Silencing a Call
You can silence a call to stop your phone from ringing. Even if you silence the call, the incoming call notification continues to be displayed on your phone.

Procedure
1. Select Silence.

Rejecting a Call Manually
You can reject a call manually, and the call may be sent to voice mail. The rejected calls are displayed in the Received Calls list in your History list.

Procedure
1. Select Reject.

Rejecting Anonymous Calls
You can reject incoming calls from the callers who have hidden their identities. As a result, your phone will not ring and you will not be notified of an attempted call.

Before You Begin
Check with your system administrator if the anonymous call rejection on code or off code is required. If required, get it from your system administrator.

Procedure
1. Navigate to Menu > Features > Anonymous Call (Anonymous.).
2. Select the desired line from the Line ID field (not supported on the T19(P) E2 IP phones).
3. Select Enabled from the Local Anony Reject (Local Anonymous Rejection) field.
4. (Optional.) Select the desired value from the Send Rejection Code field.
5. (Optional.) Enter the anonymous call rejection on code and off code respectively in the On Code and Off Code field.
6. Select Save.

Related Topic
Placing an Anonymous Call

Rejecting Calls with Do Not Disturb (DND)
You can enable DND to reject all incoming calls automatically when you do not want to be interrupted.

If you want to receive incoming calls from the specific numbers when DND is enabled, you can ask your system administrator to set DND Authorized Numbers.
Note
Check with your system administrator to find out if the DND feature is available on your phone.

Topics
Rejecting Calls with DND on All Lines
Rejecting Calls with DND on a Specific Line
Deactivating DND

Rejecting Calls with DND on All Lines
If there are multiple lines on the phone, you can enable DND for all lines. After activating it, the phone will reject all incoming calls automatically.

Note
If both DND and busy forward are activated on the phone, calls will be forwarded to the configured destination number.

Before You Begin
Check with your system administrator if the DND on code or off code is required. If required, get it from your system administrator.

Procedure
1. Navigate to Menu > Features > DND.
2. Select On from the DND Status field.
3. (Optional.) Enter the DND on code or off code respectively in the On Code or Off Code field.
4. Select Save.
   The DND icon appears in the status bar.

Tip
To activate or deactivate DND quickly, press the DND soft key when the phone is idle.

Related Topics
Deactivating DND
Redirecting Incoming Calls

Rejecting Calls with DND on a Specific Line
By default, the DND feature applies to all lines on your phone. Your system administrator can change the DND mode to Custom so that you can enable DND for specific lines. This feature is not available on the T19(P) E2 phones.

Before You Begin
The DND mode is set to Custom. Check with your system administrator if the DND on code or off code is required. If required, get it from your system administrator.

**Procedure**
1. Navigate to Menu > Features > DND.
2. Select the desired line.
3. Select **Enabled** from the **DND Account** field.
4. (Optional.) Enter the DND on code or off code respectively in the **On Code** or **Off Code** field.
5. Select **Save**.

   *The DND icon appears on the desired line.*

   *If you activate DND on the default line, the DND icon will appear both on the line and in the status bar.*

---

**Related Topics**

**Deactivating DND**

You can deactivate DND when you are ready to resume receiving calls again.

**Procedure**
1. Navigate to Menu > Features > DND.
2. (Optional.) If the DND is activated on a specific line, select the desired line.
3. Set **DND Status** or **DND Account** to **Off** or **Disabled**.
4. Select **Save**.

   *The DND icon disappears from the status bar.*

---

**Ending Calls**

You can end the current call at any time.

**Procedure**
1. Do one of the following:
   - If you are using the handset, press the Cancel key, **End Call (EndCall)** or hang up the handset.
   - If you are using the headset, press the Cancel key or **End Call (EndCall)**.
   - If you are using the speakerphone, press the Cancel key, Speakerphone key or **End Call (EndCall)**.

---

**Tip**

You can press the **All On** soft key to activate DND for all lines.

---

You can press the **All Off** soft key to deactivate DND for all lines.

---

You can press the **HEADSET** key to end calls. Check with your system administrator to find out if it is available on your phone.
Redialing a Call Automatically
You can set the phone to redial a phone number automatically when you call a contact and the contact’s line is unavailable.

Procedure
1. Navigate to Menu > Features > Auto Redial.  
   On the T29G phones, navigate to Menu > Features > Others > Auto Redial.
2. Select Enabled from the Auto Redial field.
3. Enter the desired time (between 1 and 300 seconds) in the Redial Interval field.
4. Enter the desired times (between 1 and 300) in the Redial Times field.
5. Select Save.

When you dial a number but fail to establish a call, the phone prompts whether to auto redial the contact, select OK to activate auto redial.

The phone screen displays the redial times and interval. The phone will retry as many times as configured until the callee answers the call.

Muting/Unmuting Audio
When you are in a call, you can mute the audio, so that you can hear the other person, but they cannot hear you.

Procedure
1. Press the MUTE key during a call.  
   On the T23G/T23P/T21(P) E2 phones, press the Cancel key.
2. Press the MUTE key again to unmute the call.  
   On the T23G/T23P/T21(P) E2 phones, press the Cancel key again.

Tip
You can also mute the microphone while the phone is dialing or ringing so that the other party cannot hear you when the
**Tip**
call is set up.
It is available on the T23P/T23G/T21(P) E2 phone only when the keep mute feature is enabled by your system administrator.

**Keep Mute**
In a meeting room, if incoming calls are answered automatically on your phone, callers may hear your discussion with your colleagues. You can keep the phone in mute to prevent this unintended situation.

The mute state of your phone persists across calls. The phone stays in the mute state until you unmute the microphone manually or until the phone restarts.

**Before You Begin**
Check with your system administrator if keep mute is configured on your phone.

**Procedure**

1. Press the MUTE key when the phone is idle.
   *The mute icon appears on the idle screen.*

   ![Phone Screen with Mute Icon](image)

2. Press the MUTE key again to deactivate the mute state.

**Holding and Resuming Calls**
You can place an active call on hold and resume the call when you are ready. When you place a call on hold, the held party may hear the music played by its sever.

**Topics**
- Holding a Call
- Resuming a Held Call

**Holding a Call**
You can place an active call on hold on your phone.

**Procedure**

1. Press the HOLD key or Hold during a call.
The phone ignores engaged audio device (handset or headset) and plays beep in the Speakerphone (hands-free) mode by default.

**Note**
When you have multiple calls on the phone and the current call is held, you can press the corresponding line key to swap to the active call.

**Resuming a Held Call**
You can view and resume a held call on the phone.

**Procedure**

1. Press the HOLD key again, corresponding line key or Resume.

   If multiple calls are placed on hold, select the desired call first.

**Note**
When you have multiple calls on the phone and the current call is active, you can select Swap to swap to the held call.

**Redirecting Incoming Calls**
When you are not available to answer calls on your phone, you can forward the calls to another phone.

**Topics**
Forwarding All Incoming Calls to a Contact  
Forwarding an Incoming Call Manually  
Forwarding Incoming Calls with a Forward Key  
Diverting Calls to a Contact

**Forwarding All Incoming Calls to a Contact**
You can set up the forwarding type which enables your phone to forward all incoming calls to a contact.

There are three types of forwarding:

- **Always Forward**: Forwards all incoming calls immediately.
- **Busy Forward**: Forwards incoming calls when you are busy in a call.
- **No Answer Forward**: Forwards incoming calls when no one answers the calls.

**Topics**
Forwarding All Incoming Calls on All Lines  
Forwarding All Incoming Calls on a Specific Line  
Deactivating Call Forward
Forwarding All Incoming Calls on All Lines
You can forward all incoming calls on the phone.

Before You Begin
Check with your system administrator if the forward on code or off code is required. If required, get it from your system administrator.

Procedure
1. Navigate to Menu > Features > Call Forward.
2. Select the desired forwarding type and select Enabled from the corresponding field.
3. Do one of the following:
   - Enter the contact number you want to forward incoming calls to in the Forward to field.
   - On the T29G phones, highlight the Forward to field. Press Directory (Dir), and select the desired contact from the Directory list.
4. If you select the No Answer Forward option, select the desired ring time to wait before forwarding from the After Ring Time field.
5. (Optional.) Enter the always/busy/no answer forward on code or off code respectively in the On Code or Off Code field.
6. Select Save.
   The call forward icon appears in the status bar.

Forwarding All Incoming Calls on a Specific Line
By default, the forwarding setting applies to all lines on your phone. Your system administrator can change the forward mode to Custom so that you can forward all incoming calls for specific lines. It is not available on the T19(P) E2 phones.

Before You Begin
Check with your system administrator if the forward on code or off code is required. If required, get the forward on code or off code from your system administrator.

Procedure
1. Navigate to Menu > Features > Call Forward.
2. Select the desired line.
3. Select the desired forwarding type and select Enabled from the corresponding field.
4. Do one of the following:
   - Enter the contact number you want to forward incoming calls to in the Forward to field.
   - On the T29G phones, highlight the Label or Value field. Press Directory (Dir) and select a desired contact from the Directory list.
5. If you select the No Answer Forward option, select the desired ring time to wait before forwarding from the After Ring Time field.
6. (Optional.) Enter the always/busy/no answer forward on code or off code respectively in the On Code or Off Code field.
7. Select Save.
   The forward icon appears on the desired line.
   If you activate forward on the default line, the forward icon will appear both on the line and in the status bar.

Tip
You can press the All Lines soft key to activate forward for all lines.
Deactivating Call Forward
You can deactivate call forward when you no longer want to forward your calls.

Procedure
1. Navigate to Menu > Features > Call Forward.
2. (Optional.) If the forward is activated for a specific line, select the desired line.
3. Select the desired forwarding type and select Disabled from the corresponding field.
4. Select Save.

Tip
For , you can tap Close forward. to deactivate DND quickly when the phone is idle. You can press the All Lines soft key to deactivate forward for all lines.

Forwarding an Incoming Call Manually
You can manually forward the call to another contact while your phone rings.

Procedure
1. When the phone is ringing, select Forward.
2. Enter the number you want to forward the incoming call to.
3. Press the OK key or Send.
   The phone prompts a call forward message.

Forwarding Incoming Calls with a Forward Key
When the phone receives an incoming call, you can easily press the Forward key to forward the incoming call to a specific contact.

Before You Begin
If you are using the T19(P) E2 phones, check with your system administrator if the Forward key has set for your phone.

Procedure
1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Forward (FWD) from the Key Type field.
5. If your system administrator has set the forward mode to Custom, select the desired line from the Account ID field.
6. Do one of the following:
   - (Optional.) Enter the string that will display on the phone screen in the Label field. Enter the contact number you want to forward the incoming calls to in the Value field.
   - On the T29G phones, highlight the Label or Value field. Press Directory (Dir) and select a desired contact from the Directory list.
7. Select Save.

Tip
By default, you can long press the desired line key to set it.

When the phone is ringing, press the forward key to quickly forward the call to the specific contact.
**Diverting Calls to a Contact**

You can divert all incoming calls from a particular contact to another contact. Auto divert has precedence over call forward.

**Procedure**
1. Select **Directory (Dir)** or navigate to **Menu > Directory > Local Directory**.
2. Select the desired contact group or **All Contacts**.
3. Highlight the desired contact, and select **Option > Detail**.
4. Edit the contact information.
5. Enter a contact’s number you want to divert the call to in the **Auto Divert** field.
6. Select **Save**.

**Transferring Calls**

During a call, you can transfer the call to another contact.

You can use one of three ways:

- **Blind Transfer**: Transfer a call directly to the third party without consulting.
- **Semi-Attended Transfer**: Transfer a call when receiving ringback.
- **Attended Transfer (Consultative Transfer)**: Transfer a call with prior consulting.

**Topics**

- Performing a Blind Transfer
- Performing a Semi-Attended/Attended Transfer
- Performing Transfer with a Transfer Key

**Performing a Blind Transfer**

You can transfer a call to another contact immediately without consulting with her/him first.

**Procedure**
1. Press the **TRAN** key or **Transfer (Trans)** during a call.
2. Do one of the following:
   - Enter the number or select a contact from the placed call list you want to transfer to.
   - If you have set a Speed Dial key, you can also press the Speed Dial key to transfer the call to the contact directly.
   - Press **Directory (Dir)**. Select the desired contact from the Directory list.
3. Press **B Transfer (B Trans)** or the **TRAN** key to complete the transfer.

**Tip**

If you are using a handset, the transfer can be completed by hanging up the handset.

**Performing a Semi-Attended/Attended Transfer**

You can transfer calls to other contacts immediately when receiving ringback or after consulting with them first.

**Procedure**
1. Press the TRAN key or Transfer (Trans) during a call.
2. Do one of the following:
   a. Enter the number or select a contact from the placed call list you want to transfer the call to.
   b. Press Directory (Dir). Select the desired contact from the Directory list.
3. Press the OK key or Send.
4. Do one of the following:
   a. When you hear the ringback tone, press the TRAN key or Transfer (Trans) to finish a semi-attended transfer.
   b. After the contact answers the call, press the TRAN key or Transfer (Trans) to finish an attended transfer (consultative transfer).

**Tip**

If you are using a handset, the transfer can be completed by hanging up the handset.

## Performing Transfer with a Transfer Key

By default, you can transfer a call to a specific contact directly using a Transfer key during a call.

Your system administrator can also set your phone to perform attended transfer when using a Transfer key.

### Topics

- Setting a Transfer Key
- Performing a Blind Transfer Using a Transfer Key
- Performing a Semi-attended/Attended Using a Transfer Key
- Performing a Call Transfer by Selecting a Transfer Mode

### Setting a Transfer Key

You can set a line key as a Transfer key, and specify a contact you want to transfer a call to for this key.

Line key is not available on the T19(P) E2 phones, so ask your system administrator to set a Transfer key for your phone.

### Procedure

1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Transfer (Trans) from the Key Type field.
5. Do one of the following:
   a. (Optional.) Enter the string that will appear on the phone screen in the Label field. Enter the contact number you want to transfer the call to in the Value field.
   b. On the T29G phones, highlight the Label or Value field. Press Directory (Dir) and select a desired contact from the Directory list.
6. Select Save.

**Tip**

By default, you can long press the desired line key to set it.

### Performing a Blind Transfer Using a Transfer Key

After you have set a Transfer key with a specific contact, you can perform a blind transfer by using it.

If you are using the T19(P) E2 phones, check with your system administrator if the Transfer key has set for your phone.
Before You Begin

Confirm with your system administrator that the transfer mode has set to perform a blind transfer.

Procedure

1. Press the Transfer key during a call.
   The call is transferred to the specific contact directly.

Related Topic

Setting a Transfer Key

Performing a Semi-attended/Attended Using a Transfer Key

After you have set a Transfer key with a specific contact, you can perform a semi-attended/attended transfer by using it.

If you are using the T19(P) E2 phones, check with your system administrator if the Transfer key has set for your phone.

Before You Begin

Confirm with your system administrator that the transfer mode has set to perform attended transfer.

Procedure

1. Press the Transfer key during a call.
   The phone calls the specific contact first. Wait until you hear the ringback tone or until the contact answers the call.
2. Press the Transfer key again.

Related Topic

Setting a Transfer Key

Performing a Call Transfer by Selecting a Transfer Mode

During the call, you can press the Transfer key to select a transfer mode.

Before You Begin

You need to set a Transfer key for a specific contact. Check with your system administrator to find out if this call transfer feature is available on the phone.

Procedure

1. Press the Transfer key during a call, the phone screen is shown below:
   1. New Call
   2. Attended Transfer
   3. B Transfer
   Cancel

2. Select the desired transfer mode.
Conference Calls

The phone supports a three-way local conference and multi-way network conference.

During the conference, follow these tips:

- Use the handset or a headset if you’re in an open environment.
- Mute your microphone when you are not speaking, especially in noisy environments.
- Avoid tapping or rustling papers near the microphone.
- Speak in your normal voice without shouting.

Topics

Local Conference
Network Conference

Local Conference

You can initiate a three-way (including yourself) conference calls with your contacts on the phone.

Note

Check with your system administrator to find out if the local conference is enabled on your phone.

Topics

Setting Up a Local Conference Call
Merging Two Calls into a Conference
Inviting a Transfer Target and a Transferee into a Conference
Holding or Resuming a Conference Call
Muting or Unmuting a Conference Call
Splitting a Conference Call
Managing Conference Participants
Ending a Conference Call

Setting Up a Local Conference Call

You can set up a local conference call with up to two contacts.

Procedure

1. Place a call to the first party.
2. When the first party answers the call, select Conference (Conf) to place a new call.
   
   On the T29G/T27G phones, you can also press the CONF key.
   
   Example:
   
   The active call is placed on hold.
3. Dial the second party’s number.
   
   You can also select the desired contact from the search list, or select a contact from the placed call list or Directory
   
   before you enter the number.
4. When the second party answers the call, select Conference (Conf) to invite two parties to join the conference.
   
   On the T29G/T27G phones, you can also press the CONF key.
Merging Two Calls into a Conference
You can invite a held call into a conference call with the active call.

Procedure
1. Place two calls on the phone.
2. Select the desired call for a conference and ensure that the call is active.
3. Select Conference (Conf).
4. Highlight the desired hold call and select Send.

The active call and the selected hold call are joined into a conference.

Inviting a Transfer Target and a Transferee into a Conference
After consulting with the contact you want to transfer a call to, you can invite the two calls into a conference.

Procedure
1. Select Conference (Conf) after talking with the contact you want to transfer a call to.
   On the T29G/T27G phones, you can also press the CONF key.
   The transferee and the transfer target join the conference.

Holding or Resuming a Conference Call
When you place a conference call on hold, other participants cannot hear each other until you resume the held conference call.

Procedure
1. Press the HOLD key or Hold to place the conference on hold.
2. Press the HOLD key again or Resume to resume the held conference call.

Muting or Unmuting a Conference Call
When you mute the local microphone during a conference call, other participants can hear each other except you.
**Procedure**

1. Press the MUTE key to mute the conference.  
   On the T23G/T23P/T21(P) E2 phones, press the Cancel key.
2. Press the MUTE key again to unmute the conference.  
   On the T23G/T23P/T21(P) E2 phones, press the Cancel key again.

**Splitting a Conference Call**

You can split the conference call into individual calls. After the split, the conference call ends, and other parties are held.

**Procedure**

1. Select **Split**.

**Managing Conference Participants**

You can manage the conference participants to make the conference more flexible.

**Procedure**

1. During a conference call, select **Manage**.
2. Select the desired party, you can do the following:
   - Select **Far Mute** (**FarMute**) to mute the party. The muted party can hear everyone, but no one can hear the muted party.
   - Select **Far Hold** (**FarHold**) to hold the party. The held party cannot hear anyone, and no one can hear the held party.
   - Select **Remove** to remove the party from the conference call.

**Ending a Conference Call**

When you end the conference call, the other parties drop the call.

However, the system administrator can set up your phone so that the other two parties remain connected when you end the conference call.

**Procedure**

1. Select **End Call** (**EndCall**).

**Network Conference**

If your system administrator has set a network conference feature on your phone, you can initiate a conference with two or more contacts.

**Topic**

**Setting Up a Network Conference**

You can set up a network conference with two or more contacts.

**Procedure**

1. Place a call to the first party.
2. Select **Conference** (**Conf**).
   - On the T29G/T27G phones, you can also press the CONF key.

   *The active call is placed on hold.*
3. Dial the second party’s number.
4. When the second party answers the call, select **Conference (Conf)** to add the second party to the conference. On the T29G/T27G phones, you can also press the CONF key.
5. Select **Conference** to place a new call.
   On the T29G/T27G phones, you can also press the CONF key. 
   *The conference call is placed on hold.*
6. Enter the number of the new party, and then press the OK key or **Send**.
7. When the new party answers the call, select **Conference (Conf)** to add the new party to the conference.
   On the T29G/T27G phones, you can also press the CONF key.
8. Repeat steps 5 to 7 until you add all parties.

**Note**
The procedures for setting up a network conference call on specific servers may be different. Contact your system administrator for more information.

### Recording Using a USB Flash Drive

On the T29G/T27G phones, you can record active calls onto a USB flash drive connected to your phones, and the recordings are saved as *.wav files.

Recording using a USB flash drive is not available by default. Contact your system administrator for enabling this feature for you.

**Note**
The size of a single recording file should be less than 2G.

**Topics**
- Recording a Call
- Pausing/Resuming a Recording
- Stopping a Recording
- Listening to a Recording
- Managing the Recordings
- Viewing the Available Recording Time

### Recording a Call

You can record the important parts during an active call.

**Important**
Before call recording, especially those involving PSTN, it is necessary to know about the rules and restrictions of call recording in the country where you are. It is also very important to inform all the call parties that you are recording and ask for their consent before recording the conversation.

**Before You Begin**
Make sure that the USB flash drive has been connected to your phone.

**Procedure**

1. During a call, select **More** > **Start REC**. 
   *The phone screen displays a recording icon and recording duration.*
Pausing/Resuming a Recording
When you do not want the current sensitive information to be recorded, you can pause the recording.

After pausing, you can resume it at any time and the recording continues and will be saved in the same file.

Procedure
1. Select Pause REC to pause a recording.
   The pause recording icon appears on the phone screen and the duration stops counting.
2. Select Resume REC to resume a recording.

Note
If you hold the call during the recording, none of the parties will be recorded until you resume the call.

Stopping a Recording
You can stop recording a call before the call ends. The recording also stops when the active call ends. The recording will be saved as "*.wav" file in the USB flash drive automatically.

Procedure
1. Do one of the following:
   - Select Stop REC.
     The recording icon and recording duration disappears. The screen prompts a message that the call is recorded successfully.
   - Select End Call (EndCall).
     The recording icon and recording duration disappears, and the phone returns to the idle screen. The screen prompts a message that the call is recorded successfully.

Managing the Recordings
After stopping recording, you can manage the recordings on your phone. Make sure the USB flash drive is still inserted in the phone.

Topics
Listening to a Recording
Pausing/Resuming a Playback
Fast Forwarding/Rewinding a Playback
Deleting a Recorded Call

Listening to a Recording
You can browse and play back the recordings on your phone.
During the recording plays, you can switch among Speakerphone (hands-free) modes by pressing the Speakerphone key 😄. Handset modes by pressing the HEADSET key or Handset mode by picking up the handset.

**Tip**

You can also play back the recordings on a PC using an application capable of playing “*.wav” file.

**Procedure**

1. Navigate to **Menu > USB > Browse Audio**.

   The phone screen shows all recorded files (filename, duration time and file size) in the **Browse Audio** list. The filename consists of the recording time & date, the other party’s number/IP address/name (or the first person’s number/IP address/name you called).

2. Highlight the desired file, and select **Play**.

   The length of the recording and a progress bar are displayed as the recording plays.

**Related Topics**

- **Switching Among the Handset, Speakerphone and Headset Modes**
- **Adjusting the Volume**

**Pausing/Resuming a Playback**

When you are playing a recording, you can pause it manually to take note.

When you receive an incoming call while playing a recording, the recording is paused automatically. You can resume the playback after handling the call.

**Procedure**

1. Select **Pause** to pause the playback. The **Play** soft key appears on the phone screen.
2. Select **Play** to restart the playback.

**Fast Forwarding/Rewinding a Playback**

While a recording plays, you can fast forward or rewind the playback at any time.
Procedure

- Select F.Fwd (➡️) to skip forward the playback. Press once to skip forward 8 seconds.
- Select F.Rew (⬅️) to rewind the playback. Press once to rewind 8 seconds.

Deleting a Recorded Call

You can delete the recordings when you need additional space on your USB flash drive or the recordings are useless.

Procedure

1. Navigate to Menu > USB > Browse Audio.
2. Highlight the desired recording, and select Delete.
   
   The phone prompts you whether to delete the audio.
3. Select OK.

Viewing the Available Recording Time

You can view the available recording time on your phone, to avoid recording failure due to timeout.

When you insert a USB flash drive to the phone during a call, a message will pop up to tell you how much time is available for recording.

![USB flash drive connected](image)

During a recording, if there is insufficient free space (30 minutes or 10 minutes left) on the USB flash drive, the phone will prompt you a message (XX minutes left for call recording). If no free space on the USB flash drive during recording, the recording is stopped and saved in the USB flash drive automatically.

You can also view the storage space of the USB flash drive, and check the available recording time before recording.

Procedure

1. Navigate to Menu > USB > Storage Space.

Multicast Paging

Multicast Paging allows you to broadcast instant audio announcements to users who are listening to a specific multicast group on a specific channel.

The phone supports the following 31 channels:

- **0**: Broadcasts are sent to channel 0. Note that the Yealink IP phones running firmware version 80 or earlier can be regarded as listening to channel 0. It is the default channel.
- **1 to 25**: Broadcasts are sent to channel 1 to 25. We recommend that you specify these channels when broadcasting with Polycom IP phones which have 25 channels you can listen to.
- **26 to 30**: Broadcasts are sent to channel 26 to 30. We recommend that you specify these channels when broadcasting with Yealink IP phones running firmware version 81 or later.
**Note**

All IP phones in the multicast paging group must be deployed in the same subnet since a broadcast is used. The phone can only send/receive broadcasts to/from the listened channels. Other channels’ broadcasts will be ignored automatically by the IP phone.

**Topics**

Sending Multicast Paging  
Receiving Multicast Paging  
Managing a Paging Call

**Sending Multicast Paging**

Your phone supports up to 31 groups for paging. You can assign a label to each group to identify the phones in the group, such as All, Sales, or HR.

You can set a line key as Multicast Paging key or Paging List key on the phone, which allows you to send announcements to the phones with pre-configured multicast address(es) on specific channel(s).

**Note**

Multicast RTP is one way only from the sender to the multicast address(es) (receiver). For outgoing RTP multicasts, all other existing calls on the phone will be placed on hold.

**Topics**

Setting a Multicast Paging Key  
Setting a Paging List Key  
Sending Pages by a Paging List Key  
Setting a Paging Group  
Sending a Paging by a Multicast Paging Key  
Deleting a Paging Group

**Setting a Multicast Paging Key**

You can set a Multicast Paging key for a paging group, which allows you to send announcements quickly on the idle screen.

Line key is not available on the T19(P) E2 phones, so ask your system administrator to set a Multicast Paging key for your phone.

**Before You Begin**

Get the multicast IP address and port number from your system administrator.

**Procedure**

1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Multicast Paging from the Key Type field.
5. (Optional.) Enter the paging group name in the Label field.
6. Enter the multicast IP address and port number (for example, 224.5.6.20:10008) in the Value field.
7. Enter the desired channel between 0 and 30 in the Channel field.
8. Select Save.
Tip
By default, you can long press the desired line key to set it.

Sending a Paging by a Multicast Paging Key
You can send a paging by using the Multicast Paging key when the phone is idle.

Before You Begin
You need to set a Multicast Paging key in advance. If you are using the T19(P) E2 phones, check with your system administrator if the Multicast Paging key has set for your phone.

Procedure
1. Press the Multicast Paging key when the phone is idle.
   Both your phone and receiver’s phone play a warning tone and the multicast RTP session will be automatically answered on the receiver’s phone in the speakerphone (hands-free) mode.
   On all IP phones except the T19(P) E2 phones, the multicast paging key LED glows green.
   The following figure shows a multicast RTP session on the phone:

   ![Multicast RTP session on the phone](image)

   Setting a Multicast Paging Key

Setting a Paging List Key
You can set a Paging List key to easily access the paging groups on the idle screen. Line key is not available on the T19 (P) E2 phones, so ask your system administrator to set a Paging List key for your phone.

Procedure
1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Paging List from the Key Type field.
5. (Optional.) Enter the string that will display on the phone screen in the Label field.
6. Select Save.

Tip
By default, you can long press the desired line key to set it.

Setting a Paging Group
You can edit the information of the paging group.
Before You Begin
A Paging List key is set in advance. Get the multicast IP address and port number from your system administrator.

Procedure
1. Press the Paging List key when the phone is idle.
2. Select the desired paging group.
   *The default tag is Empty if it is not configured before.*
3. Select Option > Edit.
4. Enter the multicast IP address and port number (for example, 224.5.6.20:10008) in the Address field.
5. Enter the string that will display on the phone screen in the Label field.
6. Enter the desired channel between 0 and 30 in the Channel field.
7. Select Save.
8. To set more paging groups, repeat steps 2 to 7.

Sending Pages by a Paging List Key
You can send a paging by using the Paging List key when the phone is idle.

Before You Begin
You need to set a Paging List key in advance. If you are using the T19(P) E2 phones, check with your system administrator if the Paging List key has set for your phone.

Procedure
1. Press the Paging List key when the phone is idle.
2. Select the desired paging group.
3. Select Paging to send RTP.
   *Both your phone and receiver’s phone play a warning tone and the multicast RTP session will be automatically answered on the receiver’s phone in the speakerphone (hands-free) mode.*

Related Topic
Setting a Paging List Key

Deleting a Paging Group
You can delete any group from the paging group list.

Procedure
1. Press the Paging List key when the phone is idle.
   *If the Paging List key is not set, you can also navigate to Menu > Features > Others > Paging List for the T29G phone or Menu > Features > Paging List for other phones.*
2. Select the desired paging group.
3. Select Option > Delete.
   *The phone prompts you whether to delete the paging group.*
4. Select OK.

Receiving Multicast Paging
Your system administrator has set a listening paging group for you, you can automatically receive a paging call when the phone is idle.
When there is a voice call or a paging call in progress, or when DND is activated on your phone, the phone handles the new paging call differently according to the multicast listening settings configured by your system administrator.

**Managing a Paging Call**

During a paging call, you can manage it manually at any time.

**Procedure**

- Press **Hold** to place the current paging call on hold.
  
  *The paging call is placed on hold and the receiver releases the session.*

- Press **Resume** to resume the held paging call.
  
  *The multicast RTP session is re-established.*

- Select **End Call (EndCall)** to end the paging call.
Advanced Call Features

You can perform some server-dependent tasks on the phone. Contact your system administrator to find out if your phone supports these advanced call features.

Topics

Automatic Call Distribution (ACD)

Using Call Completion

When you call someone who is temporarily unavailable to answer the call, you can monitor the busy party and establish a call after the busy party becomes available to receive a call.

Note
Call completion is not available on all servers. For more information, contact your system administrator.

Procedure

1. Navigate to Menu > Features > Call Completion.
   On the T29G phones, navigate to Menu > Features > Others > Call Completion.
2. Select Enabled or On in the Call Completion field.
3. Select Save.

When you place a call and the callee is temporarily unavailable to answer the call, the phone prompts whether to wait for the callee, select OK to activate the call completion feature.

When the callee becomes idle, the phone prompts whether to dial the number, select OK to dial the number.
Call Pickup

You can use call pickup to answer someone else’s incoming call on your phone.

The phone supports the following two call pickup features:

- **Directed Call Pickup**: allows you to pick up incoming calls to another phone.
- **Group Call Pickup**: allows you to pick up incoming calls to any phone within a predefined group.

Check with your system administrator to find out if this feature is available on your phone.

Topics

- Picking up a Call Directly
- Picking up a Group Call Directly
- Picking up a Call with a Directed Pickup Key
- Picking up a Call with a Group Pickup Key

**Picking up a Call Directly**

You can answer a call that rings on another phone.

**Before You Begin**

The target phone receives an incoming call. Your system administrator has enabled the directed call pickup and set the directed call pickup code.

**Procedure**

1. Pick up the handset, press the line key or the Speakerphone key.

   *The DPickup appears on the phone screen (You may need to select the More soft key to see the DPickup soft key).*

2. Select DPickup on your phone.

3. Enter the phone number which is receiving an incoming call.

4. Select DPickup again.

   *The call is answered on your phone.*

**Tip**

When the phone is idle, you can use a Directed Pickup or BLF/BLF List key to pick up a call to a specific contact directly. BLF/BLF List key is not available on the T19(P) E2 phone.

**Related Topics**

- Picking up a Call with a Directed Pickup Key

**Picking up a Group Call Directly**
When any phone within a predefined group receives an incoming call, you can pick up that call on your phone.

If there are multiple incoming calls on the group at the same time, you can only pick up the first incoming call.

**Before You Begin**
Your system administrator has enabled the group call pickup and set the group call pickup code.

**Procedure**
1. Pick up the handset, press the line key or the Speakerphone key.

   *The GPickup appears on the phone screen.*

2. Select GPickup on your phone when any phone in the group receives an incoming call.

   *The call is answered on your phone.*

**Tip**
When the phone is idle, you can use a Group Pickup key to pick up a group call directly.

**Related Topic**

**Picking up a Call with a Group Pickup Key**

**Picking up a Call with a Directed Pickup Key**
You can easily use a Directed Pickup key to pick up a call to a specific contact’s phone.

**Before You Begin**
Ask your system administrator for the directed call pickup code. If you are using the T19(P) E2 phones and check with your system administrator if the Directed Pickup key has set for your phone.

**Procedure**
1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Pick Up from the Key Type field.
5. Select the desired line from the Account ID field.
6. Do one of the following:
   - (Optional.) Enter the string that will display on the phone screen in the Label field.
     Enter the directed call pickup code followed by the specific extension in the Value field.
   - On the T29G phones, highlight the Label or Value field. Press Directory (Dir) and select a desired contact from the Directory list.
7. Select Save.

**Tip**
By default, you can long press the desired line key to set it.

When the target phone receives an incoming call, you can press the Directed Pickup key, and the call is answered on your phone.
Picking up a Call with a Group Pickup Key
You can easily select a Group Pickup key to pick up a group call.

Before You Begin
Check with your system administrator if the group call pickup code is required for this key. If required, get the group call pickup code from your system administrator. If you are using the T19(P) E2 phones, check with your system administrator if the Group Pickup key has set for your phone.

Procedure
1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Group Pick Up from the Key Type field.
5. Select the desired line from the Account ID field.
6. Do one of the following:
   - (Optional.) Enter the string that will appear on the phone screen in the Label field.
     Enter group call pickup code in the Value field.
   - On the T29G phones, highlight the Label or Value field. Press Directory (Dir) and select a desired contact from the Directory list.
7. Select Save.

Tip
By default, you can long press the desired line key to set it.

When any phone within a predefined group of phones receives an incoming call, you can press the Group Pickup key, and the call is answered on your phone.

Call Park and Call Retrieve
You can park a call, and then retrieve the call either from your phone or another phone. After parked, the call is placed on hold, you can continue the conversation after retrieving it.

Note
Call park is not available on all servers. Check with your system administrator to find out if it is available on your phone.

Topics

Parking or Retrieving a Call in the FAC Mode
You can park the call to the local extension or the desired extension through dialing the park code.

Topics
Parking a Call in the FAC Mode
Retrieving a Parked Call in the FAC Mode
Parking a Call in the FAC Mode
You can park a call in the FAC mode directly. When you park a call to the local extension or the desired extension, the call is held in the same network your phone.

Before You Begin
Your system administrator has set call park in the FAC mode.

Procedure
1. During a call, select **Park** (You may need to press the More soft key to see the **Park** soft key).
   The phone will dial the call park code which is pre-configured.
2. Do one of the following:
   - If you want to park the call against the local extension, press the # key.
   - If you want to park the call against the desired extension, enter the extension (for example, 4606) where you want to park the call and press the # key.
   
   *If the call is parked successfully, you will hear a voice prompt that the call is parked.

Tip
You can use a Park key or a BLF key to park a call to a specific contact directly. BLF key is not available on the T19(P) E2 phone.

Related Topics
Parking or Retrieving a Call with a Park or Retrieve Key

Parking a Call in the Transfer Mode
You can park a call in the transfer mode directly. When you park a call to the shared parking lot, the call is held on your phone.

Before You Begin
Your system administrator has set call park in the Transfer mode.

Procedure
1. During a call, select Park (You may need to select the More (₃₃₃₃) soft key to see the Park soft key).
   The call will be directly transferred to the shared parking lot.

Tip
You can use a Call Park key to park a call to a specific shared parking lot directly.

Related Topic
Parking or Retrieving a Call with a Park or Retrieve Key

Retrieving a Parked Call in the Transfer Mode
You can retrieve a parked call in the transfer mode from any phone in the same network.

Before You Begin
Your system administrator has set call park in the Transfer mode. There is a call parked on the shared parking lot.

Procedure
1. Select Retrieve (You may need to select the More (₃₃₃₃) soft key to see the Retrieve soft key) on the dialing screen.
   The phone will retrieve the parked call from the shared parking lot.

Tip
When the phone is idle, you can use a Retrieve key to retrieve a parked call directly.

Related Topic
Parking or Retrieving a Call with a Park or Retrieve Key

Parking or Retrieving a Call with a Park or Retrieve Key
You can easily use a Park key to park a call to a specific extension (if the FAC mode is set) or shared parking lot (if the Transfer mode is set), and quickly retrieve this parked call using a retrieve key. It’s not available on the T19(P) E2 phone.

Topics
**State Indicator of the Park/Retrieve key**

**Parking a Call using a Park Key**

**Retrieving a Parked Call using a Retrieve Key**

### State Indicator of the Park/Retrieve key

On T29G phones, you can get the call park/retrieve status by viewing the icon indicator of the Park/Retrieve key.

For T29G phones:

<table>
<thead>
<tr>
<th>Icons</th>
<th>Description</th>
<th>Icons</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>🎧</td>
<td>Park successfully/Idle state.</td>
<td>🎧</td>
<td>Park failed.</td>
</tr>
<tr>
<td>🎧</td>
<td>Ringing state.</td>
<td>🎧</td>
<td>Retrieve parked call.</td>
</tr>
</tbody>
</table>

### Parking a Call using a Park Key

You can set a line key as a Park key, and specify an extension or a shared parking lot you want to park a call to for this key. By using the Park key you can park a call quickly.

**Before You Begin**

Check with your system administrator if the FAC or Transfer mode is set on your phone, and if Account ID it is necessary for this key.

**Procedure**

1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Call Park from Key Type field.
5. (Optional.) Select the desired line from the Account ID field.
6. Do one of the following:
   - (Optional.) Enter the string that will appear on the phone screen in the Label field.
     - Enter the park extension number or the shared parking lot you want to park the call to in the Value field.
   - On the T29G phones, highlight the Label or Value field. Press Directory (Dir) and select a desired contact from the Directory list.

7. Select Save.

**Tip**

By default, you can long press the desired line key to set it.

During a call, you can press the Call Park key, and the call is parked to the desired extension or the shared parking lot directly.

### Retrieving a Parked Call using a Retrieve Key

You can set a line key as a Retrieve key, and specify a parked extension or retrieve lot you want to retrieve a parked call from for this key. By using the Retrieve key you can retrieve a parked call quickly.

**Before You Begin**

Check with your system administrator if the FAC or Transfer mode is set on your phone, and if Account ID is necessary for this key.

**Procedure**
1. Navigate to **Menu > Features > Dsskey**.
2. Select the desired line key.
3. Select **Retrieve Park** from the **Type** field.
4. (Optional.) Select the desired line from the **Account ID** field.
5. Do one of the following:
   - (Optional.) Enter the string that will appear on the phone screen in the **Label** field.
   - Enter the parked extension or the retrieve lot in the **Value** field.
   - On the T29G phones, highlight the **Label** or **Value** field. Press **Directory (Dir)** and select a desired contact from the Directory list.
6. Select **Save**.

**Tip**
By default, you can long press the desired line key to set it.

When there is a call parked on the extension or the shared parking lot, you can press the Retrieve key on the idle screen, and the call is retrieved from the parked extension or shared parking lot directly.

**Busy Lamp Field (BLF)**
You can monitor a specific remote line using a BLF key for status changes on the phone. It is not available on the T19 (P) E2 phones.

Advanced Call Features

Audio Alert for BLF Pickup
The Audio Alert for BLF Pickup feature allows your phone to play a tone when the specified monitored line receives an incoming call.

Topic
Setting an Alert Tone for Monitored Lines

Setting an Alert Tone for Monitored Lines
You can set the alert ring type for the monitored lines to make it easier to recognize.

Before You Begin
Check with your system administrator to find out if the Audio Alert for BLF Pickup feature is available.

Procedure
1. Navigate to Menu > Settings > Basic Settings > Sound > BLF Ring Type.
   On the T29G phones, navigate to Menu > Basic > Sound > BLF Ring Type.
2. Select the desired ring tone.
3. Select Save.

Visual Alert for BLF Pickup
Your system administrator can configure your phone to display the call information when the specified monitored line receives an incoming call.

You can select to pick up the call to the monitored line, place a call to the monitored line, place a new call or go back to the idle screen.

<table>
<thead>
<tr>
<th>Calls for Pickup</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1001 &lt;- 1008</td>
</tr>
</tbody>
</table>

[Pick Up, Send, New Call, Cancel]

Note
If you press Cancel to go back to the idle screen, you can long press the BLF key to enter the Calls for Pickup screen again.

Setting a BLF Key
You can set a BLF key to monitor a specific line for status changes on the phone.

Procedure
1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select BLF from the Type field.
4. Select the desired line from the Account ID field.
5. Do one of the following:
   - (Optional.) Enter the string that will appear on the phone screen in the **Label** field.
     Enter the phone number or the extension you want to monitor in the **Value** field.
   - On the T29G phones, highlight the **Label** or **Value** field. Press Directory (Dir) and select a desired contact from the Directory list.

6. (Optional.) Enter the directed call pickup code in the **Extension** field.

7. Select **Save**.

**Tip**
By default, you can long press the desired line key to set it.

**Note**
During a call, you can press the BLF key to select a transfer mode. Check with your system administrator to find out if this feature is available on the phone.

---

**Picking up a Remote Call by BLF Key**

When the monitored users are not at their desks and someone rings their lines, you can pick up the desired call simply by pressing the flashing BLF key.

If your system administrator set the directed call pickup code in advance, you can use the BLF key to pick up the call directly. If not or if you want to set a pickup code for a specific BLF line, you can set a pickup code for BLF key manually.

**Before You Begin**
You have edited the BLF key’s **Extension** field with the directed call pickup code from your system administrator.

**Procedure**

1. When the monitored line receives an incoming call, you can do one of the following:
   - Press the BLF key to pick up the call for the monitored line directly.
   - Long press the BLF key.
     *The Pick Up, Send, New Call and Cancel appear on the screen.*
     Select Pick Up to pick up the call.

If there are multiple incoming calls on the monitored line, select the desired call to pick up.

   *The phone dials out the barge-in code followed by the monitored line, and then you can join the call. Each of the three parties can hear the other two parties.*

**Retrieving a Call Parked to the Monitored Line**

When a call is parked to the monitored line, you can retrieve the parked call on the phone.

**Before You Begin**

Check with your system administrator to find out if Visual Alert for BLF Parked Call Monitor is enabled on your phone.

**Procedure**

1. Select Retrieve.

**Shared Line**

Yealink phone supports using Shared Call Appearance (SCA) or Bridged Line Appearance (BLA) to share a line. So that this line can be registered on more than one phone at the same time.

Your system administrator can set your phone to use the shared line.

**Topics**

### Placing Calls on a Shared Line

You can place one or multiple calls on a shared line.

The phone places a call on the first shared line key automatically. You can select the desired shared line key first and place a call using this key. Line key is not available on the T19(P) E2 phone.

**Related Topic**

### Answering Calls on a Shared Line

You can answer one or more calls on the shared line.

When an incoming call arrives on the shared line, all the registered phones will ring simultaneously, and the call can be answered on any one of the phones. Incoming calls will be distributed evenly among the available shared line keys. Line key is not available on the T19(P) E2 phone.

**Note**

If the number of incoming calls is greater than the configured line keys, the line keys will be used by sequence circulation. Contact your system administrator for more information.

**Related Topic**

### Answering Calls

### Placing a Call on Public Hold

You can place a call on public hold that any shared line phone can retrieve the held call.

**Procedure**

1. During a call, press the HOLD key or **Hold**.
The call is held on your phone, and all of the phones registered with a shared line show the call is in a held state on the shared line key.

Placing a Call on Private Hold

In SCA scenario, you can place a call on private hold that only you can retrieve the held call.

The PriHold soft key can be preset by your system administrator, you can also set a line key as the private hold key manually if the PriHold soft key is not available on your phone. You need to configure a private hold key before you place the call on private hold. Private Hold key is not available on the T19(P) E2 phone.

Procedure

1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Key Event from the Type field.
4. Select Private Hold from the Key Type field.
5. (Optional.) Enter the string that will display on the phone screen in the Label field.
6. Select Save.

Tip

By default, you can long press the desired line key to set it.

During an SCA call, press PriHold or Private Hold key on the phone (You may need to press the More(软键) soft key to see the PriHold soft key). Then the call is held on your phone, and the other phones registered with a shared line show the call is in the busy state on the shared line key. Other users on the shared line cannot resume your held call.

Retrieving a Held Call on a Shared Line

If you place a call on hold on a shared line, you can resume this call at any time. When the shared line key shows a call that is in a held state, you can resume the held call remotely from other user's phone.

It is not available on the T19(P) E2 phone.

Before You Begin

There is at least one call placed on public hold on the shared line.

Procedure

1. Do one of the following:
   a. Press the line key.
   b. In SCA scenario, long press the shared line key.

The Cancel, Call Pull (CallPull), New Call (NewCall) and Retrieve appear on the screen.

Select Retrieve to retrieve the call.

Barging in an Active Call on a Shared Line

In SCA scenario, you can barge into an active call on the shared line. After you barge into a call, the call turns into a three-party conference.

Note

Only one user can barge into an active call on the shared line at a time.

It is not available on the T19(P) E2 phones.
Before You Begin
There is at least one active call on the shared line.

Procedure
1. Long press the desired line key, and then select an active call.

   The **Cancel**, **Call Pull (CallPull)**, **New Call (NewCall)** and **Barge In (BargeIn)** appear on the phone screen.

2. Select **Barge In (BargeIn)** to interrupt the active call.

Pulling a Shared Call on a Shared Line
In SCA scenario, both you and other users can pull an existing call from another shared phone that is an active or hold state.

It is not available on the T19(P) E2 phone. Check with your system administrator to find out if this feature is available for your phone.

Before You Begin
There is an active or held call on the shared line.

Procedure
1. Long press the line key, and then select a call.

   2. Select **Call Pull (CallPull)** to pull the call.

Intercom
Intercom is a useful feature in an office environment to quickly connect with the operator or the secretary.

Intercom enables you to place an intercom call that is answered automatically on the contact’s phone as long as the contact is not in an active call.
Note
Intercom is not available on all servers. Contact your system administrator for more information.

Topics
State Indicator of the Intercom key
Placing an Intercom Call
Picking up an Incoming Call of the Target Extension
Answering an Intercom Call

State Indicator of the Intercom key
On T29G phones, you can get the intercom status by viewing the icon indicator of the Intercom key.

For T29G phones:

<table>
<thead>
<tr>
<th>Icons</th>
<th>Description</th>
<th>Icons</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Target extension is available." /></td>
<td>Target extension is available.</td>
<td><img src="image" alt="Target extension is busy or is in a call." /></td>
<td>Target extension is busy or is in a call.</td>
</tr>
<tr>
<td><img src="image" alt="Target extension is dialing." /></td>
<td>Target extension is dialing.</td>
<td><img src="image" alt="Talking" /></td>
<td>Talking</td>
</tr>
<tr>
<td><img src="image" alt="Target extension fails to register." /></td>
<td>Target extension fails to register.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Placing an Intercom Call
You can place an intercom call to quickly relay a message to a contact.

The target phone plays a warning tone and automatically answers the call in speakerphone (hands-free) mode by default. When the target phone has an active call, the intercom call is answered automatically after the active call ends.

You can also press the BLF/BLF List key to initiate an outgoing intercom call to the monitored user. Check with your system administrator to find out if it is available on your phone.

Before You Begin
If you are using the T19(P) E2 phones, check with your system administrator if the Intercom key has set for your phone.

Procedure
1. Navigate to Menu > Features > Dsskey.
2. Select the desired line key.
3. Select Intercom from the Type field.
4. Select the desired line from the Account ID field.
5. Do one of the following:
   - (Optional.) Enter the string that will appear on the phone screen in the Label field. Enter the target extension number in the Value field.
   - On the T29G phones, highlight the Label or Value field. Press Directory (Dir) and select a desired contact from the Directory list.
6. Select Save.
7. Press the Intercom key to place an intercom call.

Tip
By default, you can long press the desired line key to set it.
Related Topic
Setting a BLF Key

Picking up an Incoming Call of the Target Extension
You can pick up the target extension’s incoming call by pressing the Intercom key.

Before picking up an incoming call, make sure that the directed call pickup code has been configured either for an Intercom key or for Call Pickup feature in advance.

Check with your system administrator to find out if this feature is available on your phone.

Note
If the directed call pickup code is not set, the phone will place a call to the target extension instead of picking up an incoming call of the target extension when you press the Intercom key.

Before You Begin
Get the directed call pickup code from your system administrator.

Procedure
1. Long press the Intercom key.
2. Enter the directed call pickup code in the Extension field.
3. Select Save.

When the target extension receives an incoming call, the Intercom key LED of the target extension will flash green. The Intercom key LED is not available on T19(P) E2. Press the Intercom key to pick up the incoming call directly.

Answering an Intercom Call
By default, when there is an incoming intercom call, the phone plays a warning tone and automatically answer the incoming call.

During the intercom call, you can switch among the Speakerphone (hands-free), Handset and headset modes. If your phone is set to answer intercom calls with your microphone muted, you need to press the Mute key to unmute your microphone before responding to the call.

You can configure the following behaviors when receiving an intercom call.

Intercom Allow
Intercom Allow feature allows the phone to automatically answer an incoming intercom call. If you disable this feature, the phone will handle an incoming intercom call like a normal incoming call.

Note
Your system administrator can set a period of delay time before the phone automatically answers intercom calls.

Intercom Mute
Intercom Mute feature allows the phone to mute the microphone when incoming intercom calls are answered automatically.

Intercom Tone
Intercom Tone feature allows the phone to play a warning tone before answering an intercom call automatically.

Intercom Barge
Intercom Barge allows the phone to automatically answer an incoming intercom call while an active call is in progress. The active call will be placed on hold. If you disable this feature, the phone will handle an incoming intercom call like a normal incoming call while there is already an active call on the phone.

**Note**
To enable the phone to receive a new incoming call when it already has an active call, make sure that the call waiting feature is enabled on the phone in advance.

**Procedure**
1. Navigate to **Menu > Features > Intercom**.
2. Make the desired changes.
3. Select **Save**.

**Short Message Service (SMS)**
Text messages can be stored in your phone's Inbox, Sentbox, Outbox or Draftbox, and each box stores up to 100 text messages.

If there are more than 100 text messages in any one of the boxes, the phone will directly delete the oldest text message in the box.

**Note**
SMS is not available on all servers. Contact your system administrator for more information.

**Topics**
- Reading a Text Message
- Sending a Text Message
- Replying to a Text Message
- Deleting a Text Message

**Reading a Text Message**
You can read your text messages on the phone, to obtain text information sent by a contact.

**Procedure**
1. Navigate to **Menu > Message > Text Message > Inbox**.
2. Highlight the desired message and select **View**.

**Tip**
If the phone prompts you there is a new text message, you can select the **View** soft key to read the new messages directly. But your system administrator can disable the prompt box for the new message(s).

**Sending a Text Message**
The phones can send text messages.

**Procedure**
1. Navigate to **Menu > Message > Text Message > New Message**.
2. Compose the new text message.
3. Select **Send**.
4. Select the desired account from the **From** field.
5. Do one of the following:
   - Enter the number you want to send the message to in the **To** field.
   - On the T29G phones, highlight the **Label** or **Value** field. Press **Directory (Dir)** and select a desired contact from the Directory list.
6. Send the message.

**Replying to a Text Message**

You can reply to a message after reading a text message.

**Procedure**

1. Navigate to **Menu > Message > Text Message > Inbox**.
2. Highlight the desired message and select **Reply**.
3. Compose the new text message.
4. Select **Send**.

**Deleting a Text Message**

You can delete messages from your phone after reading.

**Procedure**

1. Navigate to **Menu > Message > Text Message > Inbox** (Sentbox, Outbox or Draftbox).
2. Highlight the desired message.
3. Select **Option > Delete**.
   
   *The phone prompts you whether to delete the message.*
4. Select **OK**.

You can also delete all text messages by selecting the **Delete All**.

**Voice Mail**

Voice Mail feature allows you to leave voice mails for someone or listen to your voice mail messages on your IP phones.

This feature is set up on the server-side and not all servers support this feature.

**Topics**

- Setting the Voice Mail Code
- Leaving Voice Mails
- Listening to Voice Mails

**Setting the Voice Mail Code**

If you want to connect your phone to the message center, you need to set the voice mail code on your phone.

**Before You Begin**

Get the voice mail code from your system administrator.
Procedure
1. Navigate to **Menu > Message > Voice Mail > Set Voice Mail Code**.
   You can also press the MESSAGE key when the voice mail code is not configured.
2. Enter the voice mail code (for example, *4) in the desired account field.
3. Select **Save**.

**Leaving Voice Mails**
You can leave a voice mail to someone who is busy or inconvenient to answer the call.

Procedure
1. Follow the voice prompts to leave a voice mail.
2. Hang up to complete the voice mail.

**Listening to Voice Mails**
You can listen to your voice mails on the phone, to obtain voice information sent by a contact.

**Before You Begin**
You need to set the voice mail code in advance.

Procedure
1. Navigate to **Menu > Message > Voice Mail > View Voice Mail**.
   *The phone screen displays the amount of new and old voice mails.*
2. Highlight an account, and then select **Connect**.
3. Follow the voice prompt to listen to your voice mails.

**Tip**
When the phone prompts that the phone receives a new voice mail, you can press the MESSAGE key or **Connect** soft key to dial out the voice mail access code directly.

**Related Topic**
**Setting the Voice Mail Code**

**Using the Hot Desking**
You can use hot desking to log out from the current account and then log in to a new account. So many users can share one phone resource at different times.

**Note**
Hot desking is not available on all servers. Contact your system administrator for more information.

**Before You Begin**
Your system administrator has set a Hot Desking key for you to use this feature. Get the login account information from your system administrator.

Procedure
1. Press the Hot Desking key when the phone is idle.
   *The phone prompts you whether to clear the account configuration.*
2. Select **OK**.

Registration configurations of all accounts on the phone will be cleared immediately.
The login wizard will be displayed.

3. Enter the login information.
4. Select **Save**.

**Automatic Call Distribution (ACD)**

ACD is often used in offices for customer service, such as call center.

The ACD system handles large volumes of incoming calls from callers who have no need to talk to a specific person but who require assistance from any of multiple persons at the earliest opportunity. ACD on all IP phones allows the ACD system to distribute large volumes of incoming calls to the registered ACD users.

ACD is not available by default. Check with your system administrator to find out if this feature is available on your phone.

**Topics**

- State Indicator of ACD User
- Logging into the ACD System
- Changing the ACD Status

**State Indicator of ACD User**

You can get the ACD user’s status by viewing the line key LED and icon indicator of the ACD key.

The state indicator of the ACD key varies by phone models.

<table>

**Logging into the ACD System**

After logging into your ACD account, you are ready to receive calls from the ACD system.

**Before You Begin**

Your system administrator has set an ACD key for you to log into the ACD system. Get your ACD account information from your system administrator.

**Procedure**

1. Press the ACD key when the phone is idle.
2. Enter your ACD account information.
3. Select **Login**.

**Changing the ACD Status**

You can press the ACD key to change your current ACD user status.
Procedure

1. Press Available (Avail)/Unavailable (Unavail).
   
   ACD user status synchronizes on both the phone and ACD system.

2. To log out of the ACD system, select Logout.
Directory

The phone provides several types of phone directories, which can be customized by your system administrator.

Adding Contacts
When you add a contact to your Local Directory, you can choose how much information you want to enter for your contact. You are required to enter a contact name at least for each new contact.

Procedure
1. Select Directory (Dir) or navigate to Menu > Directory > Local Directory.
2. Select the desired contact group or All Contacts.
3. Select Add.
4. Enter your contact’s information.
5. Select the desired account from the Account field.
6. On the T29G phones, select the desired photo from the Photo field.
7. Select Save or Add.

Viewing Contacts
You can view the local contacts from the Local Directory on your phone.

Procedure
1. Select Directory (Dir) or navigate to Menu > Directory > Local Directory.
2. Select the desired contact group or All Contacts.
   The contact names are displayed in alphabetical order.

Editing Contacts
You can update your contacts’ information.
**Procedure**

1. Select **Directory (Dir)** or navigate to **Menu > Directory > Local Directory**.
2. Select the desired contact group or **All Contacts**.
3. Highlight the desired contact, and select **Option > Detail**.
4. Edit the contact information.
5. Select **Save**.

**Deleting a Contact**

You can delete any contact from the Local Directory.

**Procedure**

1. Select **Directory (Dir)** or navigate to **Menu > Directory > Local Directory**.
2. Select the desired contact group or **All Contacts**.
3. Highlight the desired contact, and select **Option > Delete**.
   
   *The phone prompts you whether to delete the contact.*
4. Select **OK**.

**Note**

If the contact added to the Favorites directory is deleted in the Local Directory, it will be automatically deleted from the Favorites directory.

**Deleting All Contacts**

You can delete all contacts from the Local Directory.

**Procedure**

1. Select **Directory (Dir)** or navigate to **Menu > Directory > Local Directory**.
2. Select the desired contact group or **All Contacts**.
3. Select **Option > Delete All**.
   
   *The phone prompts you whether to delete all contacts.*
4. Select **OK**.

**Note**

If the contact added to the Favorites directory is deleted in the Local Directory, it will be automatically deleted from the Favorites directory.

**Moving a Local Directory Contact to Blacklist**

You can move a contact in the Local Directory to blacklist. Incoming calls from this contact will be rejected automatically.

**Procedure**

1. Select **Directory (Dir)** or navigate to **Menu > Directory > Local Directory**.
2. Select the desired contact group or **All Contacts**.
3. Highlight the desired contact, and select **Option > Add to Blacklist**.
   
   *The phone prompts you whether to move to the blacklist.*
4. Select **OK**.

**Searching for Contacts**

In the Local Directory, you can enter search criteria to find your desired contact quickly.
Procedure
1. Select Directory (Dir) or navigate to Menu > Directory > Local Directory.
2. Select Search.
3. Enter your search criteria in the search field.

Favorites
Favorites are the contacts in your Local Directory that you call most often.

If your system administrator has enabled this feature for you, you can add contacts as favorites, view favorites on the idle screen, reorder favorites, and delete favorites.

Topics
Adding Favorites
Viewing Favorites
Reordering Favorites
Deleting Favorites

Adding Favorites
After adding a contact as a favorite, your phone will automatically assign a Speed Dial key for it. You can quickly dial a contact using the Speed Dial key on the idle screen.

On all IP phones except the black-and-white screen phones, a star is displayed in the Local Directory for a contact saved as the favorite.

Topics
Adding an Existing Contact to Your Favorites
Adding a New Contact to Your Favorites

Adding an Existing Contact to Your Favorites
You can add an existing contact as a favorite from the Local Directory.

Procedure
1. Select Directory (Dir) or navigate to Menu > Directory > Local Directory.
2. Select the desired contact group or All Contacts.
3. Highlight the desired contact and select Option.
4. Select Copy to Favorites.
   The phone prompts you whether to automatically accept the next available index number or manually enter your own.
5. Select OK to automatically accept an index number or select Edit to enter an index number (1-999999999).

Adding a New Contact to Your Favorites
You can add a new contact as a favorite by designating an index number.

Procedure
1. Select Directory (Dir) or navigate to Menu > Directory > Local Directory.
2. Select the desired contact group or All Contacts.
3. Select Add.
4. Enter the contact information.
5. Enter the desired index number (1-999999999) in the Favorite Index field.
6. Select Save or Add.

**Tip**
To quickly add a favorite, long press the desired line key to enter the Add Contact screen. Check with your system administrator to find out if this feature is available on your phone.

**Viewing Favorites**
You can view a list of favorites in the Favorites directory.

**Procedure**
1. Navigate to Menu > Directory > Favorites.

**Reordering Favorites**
You can reorder favorites to change the display order in the Favorite.

**Procedure**
1. Navigate to Menu > Directory > Favorites.
2. Highlight the desired contact, and select Option > Detail.
3. Enter a new index number in the Favorites Index field.
4. Select Save.

**Deleting Favorites**
You can delete favorites to make room for new favorites.

**Procedure**
1. Navigate to Menu > Directory > Favorites.
2. Highlight the desired contact, and then select Option > Detail.
3. Delete the favorite index number in the Favorites Index field.
4. Select Save.

*The contact is removed from Favorites directory, while it still remains in your Local Directory.*

**Tip**
You can also delete a favorite by selecting Option > Remove from Favorites.

**Blacklist**
Incoming calls from the Blacklist are rejected automatically. You can store up to 30 contacts in the blacklist to block unwanted callers.

Searching for Remote Phone Book Contacts

In the Remote Phone Book, you can enter search criteria to find your desired contact quickly.

Note

You can only search the contact name or contact numbers, search criteria do not include extra information on the contact.

Procedure

2. Select the desired remote phone book.
3. Select Search.
4. Enter your search criteria in the search field.

Viewing Remote Phone Book Contacts

You can view the contact list of the remote phone book on your phone.

Procedure

Saving a Remote Phone Book Contact to the Local Directory

You can save any remote phone book contact to the Local Directory, to conveniently call this contact when you cannot access the remote phone book.

Procedure
2. Select the desired remote phone book.
3. Highlight the desired contact, and then press Option > Add to Contacts.
4. Edit the corresponding fields.
5. Select Save.

Saving a Remote Phone Book Contact to the Blacklist

You can save any remote phone book contact to the Blacklist on the phone, to prevent this contact from calling you.

Procedure
2. Select the desired remote phone book.
3. Highlight the desired contact, and select Option > Add to Blacklist.
4. Edit the contact information.
5. Select Save.
Call History

The call history list includes Missed Calls, Placed Calls, Received Calls and Forwarded Calls, and each list holds 100 entries.

Viewing History Records
The history record saves the call information such as the caller's name and number, local line and call duration.

Procedure
1. Press History or navigate to Menu > History.
2. Select the desired list.
3. Select the desired entry.
4. Select Option > Detail.

Saving a History Record to Local Directory
To identify someone's call the next time, you can save a history record to the Local Directory.

Procedure
1. Select History or navigate to Menu > History.
2. Select the desired list.
3. Highlight the desired entry, and select Option > Add to Contacts.
4. Edit the contact information.
5. Select Save.

**Saving a History Record to Blacklist**
You can prevent someone from calling you again by saving a history record to Blacklist.

**Procedure**
1. Select History or navigate to Menu > History.
2. Select the desired list.
3. Highlight the desired entry, and select Option > Add to Blacklist.
4. Edit the contact information.
5. Select Save.

**Deleting History Records**
You can delete one or all call records from the call history list.

**Topics**
- Deleting a Call Record
- Deleting All Call Records

**Deleting a Call Record**
You can delete any call record from the call history list.

**Procedure**
1. Press History or navigate to Menu > History.
2. Select the desired list.
3. Highlight the desired entry, and select Delete.

**Deleting All Call Records**
You can delete all call records from the call history list.

**Procedure**
1. Press History or navigate to Menu > History.
2. Select the desired list.
3. Select Option > Delete All.
   
   *The phone prompts you whether to delete all the records.*
4. Select OK.

**Disabling History Record**
If you disable history record, you cannot save any call log on the phone.

**Procedure**
1. Navigate to Menu > Features > History Settings.
   
   On the T29G phones, navigate to Menu > Features > Others > General.
2. Select **Disabled** from the **History Record** field.
3. Select **Save**.
Customizing Your Phone

You can make your phone more personalized by customizing various settings.

Topics
Changing the Administrator Password
Wallpaper
Screen Saver
Changing the Backlight and Time
Adjusting the Screen Contrast

Changing the Administrator Password

By default, you require an administrator password to access the Advanced/Advanced Settings menu. The default password is "admin". For security reasons, you should change the default password as soon as possible.

Note
If you do not change the default password, the phone displays a warning icon in the status bar.

Procedure

1. Navigate to Menu > Settings > Advanced Settings > Change Password.
   On the T29G phones, navigate to Menu > Advanced > Change Password.
2. Enter your old and new password information.
3. Select Save.

Warnings

Wallpaper

You can change the background picture that is displayed on your phone.

The phone comes with a default background picture, you can change it to another built-in picture. You can also add personal pictures stored on a USB flash drive, or use a custom picture uploaded by your system administrator as the wallpaper.

Only T29G phones support wallpaper.

Topics
Changing Wallpaper on Idle Screen
Adding a Wallpaper from a USB Flash Drive
Changing Wallpaper on Idle Screen
You can set one of your pictures as the background image on your phone’s idle screen.

Procedure
1. Navigate to Menu > Basic > Display > Wallpaper.
2. Select the desired image.
3. Select Save.

Adding a Wallpaper from a USB Flash Drive
You can use a picture that is stored on a USB flash drive as the background image of your phone.

We recommend that you add a picture less than 1.8 megapixels. Either the smaller or larger picture will be scaled proportionally to fit the screen.

Before You Begin
Make sure that the picture is in the root directory of your USB flash drive, and the USB flash drive is connected to your phone successfully.

Procedure
1. Navigate to Menu > USB > Browse Photo.
2. Highlight the desired picture, and select Preview.
3. Select Set as > Set as wallpaper.
4. Select OK.
   The phone background image will change to the selected picture.

Screen Saver
The screen saver starts automatically when your phone has been idle for the preset waiting time. You can stop the screen saver by pressing any key.

Topics
Changing the Waiting Time for Screen Saver
Disabling Time & Date and Status Icons Display
Adding a Screen Saver from a USB Flash Drive
Setting the Screen Saver Type

Changing the Waiting Time for Screen Saver
You can set the waiting time after no activity before displaying the screen saver.

Procedure
1. Navigate to Menu > Settings > Basic Settings > Display > Screensaver.
   On the T29G phones, navigate to Menu > Basic > Display > Screensaver.
2. Select the desired waiting time from the Wait Time field.
3. Select Save.

Disabling Time & Date and Status Icons Display
For the T29G phones, you can disable your phone to display time, date and status icons on the screen saver.

The Time & Date and status icons display on the screen saver, as shown below:
Customizing Your Phone

Note
You cannot configure Time & Date and status icons display if your system administrator has set your phone to display custom information on the screen saver.

Procedure
1. Navigate to Menu > Basic > Display > Screensaver.
2. Select Disabled from the Display Clock field.
3. Select Save.

Adding a Screen Saver from a USB Flash Drive
You can use a picture that is stored in your USB flash drive as the screen saver on your phone.

We recommend that you add a picture less than 1.8 megapixels. Either the smaller or larger picture will be scaled proportionally to fit the screen.

Before You Begin
Make sure that the picture is in the root directory of your USB flash drive, and the USB flash drive is connected to your phone successfully.

Procedure
1. Navigate to Menu > USB > Browse Photo.
2. Highlight the desired picture, and select Preview.
3. Select Set as > Set as screensaver.
4. Select OK.

Setting the Screen Saver Type
The screen saver can start with different types and you can set it manually.

For the T29G phones, you can choose one of the following screen saver types:
- System
- Custom
- Server XML (shows custom information on the screen saver)

The T27G/T23P/T23G/T21(P) E2/T19(P) E2 phones can only display custom information that is preset by your system administrator as the screen saver.

Before You Begin
If you want to set a custom picture as the screen saver, make sure that the custom picture has been uploaded by your system administrator.

If you want to show custom information on the screen saver, make sure that the custom information has set by your system administrator.

**Procedure**

1. Navigate to **Menu > Basic > Display > Screensaver**.
2. Select the desired screen saver type from the **Screensaver Type** field.
   - If you select **System**, the phone automatically set the built-in picture as the screen saver.
   - If you select **Custom**, the phone automatically set the custom pictures as the screen saver, and display these pictures alternately.
   - If you select **Server XML**, the phone automatically displays the custom information (for example, notifications or company logo) on the screen saver.
3. Select **Save**.

**Changing the Backlight and Time**

You can change the brightness of the phone screen during phone activity and inactivity. The brightness automatically changes after the phone has been idle for a specified time. It is not available for the T19(P) E2 phone.

You can change the screen backlight and time in the following settings:

**Active Level**: The brightness level of the phone screen when the phone is active. Digits 1 to 10 represent different brightness levels. 10 is the brightest level. It is only available for the T29G/T27G phones.

**Inactive Level**: The brightness of the phone screen when the phone is inactive. You can select a low brightness or turn off the backlight. It is only available for the T29G phones.

**Backlight Time**: The delay time to change the brightness of the phone screen when the phone is inactive. Backlight time includes the following settings:
   - **Always On**: Backlight is on permanently.
   - **Always Off**: Backlight is off permanently. It is not available for the T29G phone.
   - **15s, 30s, 1min, 2min, 5min, 10min or 30min**: Backlight is changed when the phone is inactive after the designated time.

**Procedure**

1. Navigate to **Menu > Settings > Basic Settings > Display > Backlight**.
   On the T29G phones, navigate to **Menu > Basic > Display > Backlight**.
2. On the T29G/T27G phones, select the desired level from the **Active Level** field.
3. On the T29G/T27G phones, select the desired level from the **Inactive Level** field.
4. Select the desired time from the **Backlight Time** field.
5. Select **Save**.

**Adjusting the Screen Contrast**

You can adjust the screen contrast of the phone to make it easier to read.
The intensity of screen contrast ranges from 1 to 10 and the highest intensity is 10. It is not available on the T29G phones.

**Procedure**

1. Navigate to **Menu > Settings > Basic Settings > Display > Contrast**.
2. Select the desired value from the **Contrast** field.
3. Select **Save**.

**Changing the Language**

Your phone supports several languages that you can choose to use on the phone.

Contact your system administrator to find out exactly which languages are supported on your phone.

**Procedure**

1. Navigate to **Menu > Settings > Basic Settings > Language**.
   - On the T29G phones, navigate to **Menu > Basic > Language**.
2. Select the desired language.
3. Select **Save**.

   *The phone language is changed to the selected one.*

**Time & Date**

You can set the time and date manually. The time and date formats are also variable.

**Topics**

- Setting the Time and Date Manually
- Changing the Time and Date Format

**Setting the Time and Date Manually**

If your phone cannot obtain the time and date automatically, you can set it manually.

**Procedure**

1. Navigate to **Menu > Settings > Basic Settings > Time & Date > Manual Settings**.
   - On the T29G phones, navigate to **Menu > Basic > Time & Date > General > Manual Settings**.
2. Edit the date and time.
   - On the T29G phones, you can also press the up or down navigation key to select the desired date and time.
3. Select **Save**.

   *The time and date set on the phone will be changed accordingly.*

**Changing the Time and Date Format**

You can set the phone to display the time in 12-hour format or 24-hour format. You can also change the date format, including the options to display the day (D), month (M), and year (Y).

**Note**

Your system administrator can customize the date format.

**Procedure**
1. Navigate to **Menu > Settings > Basic Settings > Time & Date > Time & Date Format**.  
   On the T29G phones, navigate to **Menu > Basic > Time & Date > Time & Date Format**.
2. Select the desired time format or date format.
3. Select **Save**.

### Setting a Key as Send

The pound key (#) is used as the send key by default. To type a phone number followed by the pound key (#), you can set the send key to the star key (*).

You can also disable "#" and "*" to be used as the send key.

**Procedure**

1. Navigate to **Menu > Features > Key As Send**. 
   On the T29G phones, navigate to **Menu > Features > Others > General**.
2. Select the desired value from the **Key As Send** field.
3. Select **Save**.

### Customizing the Soft Keys

You can customize the function of the soft keys displayed on the bottom of the idle screen for all IP phones except the T29G phones.

The soft keys are typically used to access frequently used functions, and to create menu shortcuts to access frequently used phone settings. The soft keys perform the same functions as the hard keys.

**Caution**

We recommend that you keep a **Menu** soft key, otherwise you cannot access the phone settings.

**Procedure**

1. Navigate to **Menu > Settings > Advanced Settings** (default password: admin) > **Softkey Label**.
2. Select the desired soft key.
3. Select the desired key type from the **Type** field.
4. (Optional.) Select the desired line from the **Account ID** field.
5. (Optional.) Enter the string that will appear on the phone screen in the **Label** field.
6. (Optional.) Enter the corresponding value in the **Value** field.
7. Select **Save**.

### Phone Lock

Phone lock helps you protect your phone from unauthorized use.

**Topics**

- Setting the Phone Lock
- Locking Your Phone Manually
- Unlocking Your Phone
- Changing Your Phone Unlock PIN
**Setting the Phone Lock**

You can manually lock the phone or wait a specified time to automatically lock the phone.

What unauthorized users can do depends on the settings of the phone lock type.

The phone supports the following phone lock types:

- **Menu key**: it prevents unauthorized users from accessing the menu, changing the personal settings for your phone.
- **Function key**: it only allows users to use the keypad for placing a call, answering or rejecting an incoming call and ending a call, and it prevents unauthorized users from other operations.
- **All keys**: it only allows users to use the keypad for dialing an emergency number or authorized numbers that set up by your system administrator, answering or rejecting an incoming call and ending a call, and it prevents unauthorized users from other operations. The phones only support All Keys type of phone lock.

**Note**

The Volume key, HEADSET key and Speakerphone key are always available when you lock the phone.

**Procedure**

1. Navigate to **Menu > Settings > Basic Settings > Phone Lock**.
   
   On the T29G phones, navigate to **Menu > Basic > Phone Lock**.
2. Enter the desired PIN (default PIN: 123) in the **Unlock PIN** field.
3. Select **OK**.
4. Select **Enabled** from the **Lock Enable** field.
5. Select the desired type from the **Lock Type** field.
6. Enter the desired interval (0 - 3600 seconds) in the **Auto Lock** field.
   
   If the value is set to 0, the phone will not be automatically locked.
7. Select **Save**.

**Locking Your Phone Manually**

You can lock the phone manually before the phone is automatically locked.

**Before You Begin**

Make sure that the phone lock is set.

**Procedure**

1. Long press # key when the phone is idle.
   
   The lock icon appears on the phone screen.

**Related Topic**

Setting the Phone Lock

**Unlocking Your Phone**

You can use an unlock PIN to unlock the phone.

If you forget the unlock PIN, you can enter the administrator password to unlock your phone, and then automatically access the PIN change screen.

**Procedure**

1. Press any locked key, the phone prompts you to enter an unlock PIN.
2. Enter the desired PIN (default: 123) in the **Unlock PIN** field.
3. Select **OK**.

   *The lock icon disappears from the phone screen.*

### Changing Your Phone Unlock PIN

The default unlock PIN is "123". For security reasons, you should change the default unlock PIN as soon as possible.

**Procedure**

1. Navigate to **Menu > Settings > Basic Settings > Change PIN.**
   - On the T29G phones, navigate to **Menu > Basic > Change PIN.**
2. Enter your old and new unlock PIN respectively.
   - The unlock PIN length must be within 15 digits.
3. Select **Save.**

### Extending the Line Key Labels

On the T27G phones, you can extend the line key labels to the half of the phone screen when the phone is idle or during the call.

**Procedure**

1. Navigate to **Menu > Features > Dsskey.**
2. Select the desired line key.
3. Select **Key Event** from the **Type** field.
4. Select **Extend** from the **Key Type** field.
5. (Optional.) Enter the string that will appear on the phone screen in the **Label** field.
6. Select **Save.**
7. When the phone is idle/during the call, press the Extend key to extend the line key labels.

**Note**

During the call, the phone automatically exits the Extended Dsskey screen within 1 minute if there is no operation. When the phone is idle, you need to press the Extend key again to exit the Extended Dsskey screen.
Audio Settings

You can change the basic audio settings on your phone.

Topics

- Adjusting the Volume
- Setting the Ring Tone
- Disabling the Key Tone

Adjusting the Volume

You can adjust the volume of the ringer, media, and the audio during a call.

Procedure

1. Press the volume key to adjust the volume.

Setting the Ring Tone

You can set distinctive ring tones for groups or contacts in your Local Directory so that you can identify the caller when your phone rings.

The ring tones are used according to this priority: Contact ring tone > Group ring tone > Account ring tone > Phone ring tone.

Topics

- Setting a Ring Tone for the Phone
- Setting a Ring Tone for an Account
- Setting a Ring Tone for a Group
- Setting a Ring Tone for a Contact

Setting a Ring Tone for the Phone

You can choose a ring tone for all incoming calls.

Procedure

1. Navigate to Menu > Settings > Basic Settings > Sound > Ring Tones > Common.
   On the T29G phones, navigate to Menu > Basic > Sound > Ring Tones > Common.
2. Select the desired ring tone.
3. Select Save.

Setting a Ring Tone for an Account

You can select a unique ring tone for an individual account.

Procedure

1. Navigate to Menu > Settings > Basic Settings > Sound > Ring Tones.
   On the T29G phones, navigate to Menu > Basic > Sound > Ring Tones.
2. Select the desired account.
3. Select the desired ring tone.

   If Common is selected, this account will use the ring tone selected for the phone.
4. Select Save.

**Setting a Ring Tone for a Group**
You can select a unique ring tone for various groups in your Local Directory.

<table>
<thead>
<tr>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>You can only set a ring tone for a group that is added manually.</td>
</tr>
</tbody>
</table>

**Procedure**

1. Select **Directory (Dir)** or navigate to **Menu > Directory > Local Directory.**
2. Highlight the desired group.
3. Select **Option > Detail.**
4. Select the desired ring tone from the **Ring** field.
   - If **Auto** is selected, this group uses the ring tone according to the default priority.
   - If a specific ring tone is selected, this group uses the ring tone according to the priority: **Contact ring tone** > **Group ring tone.**
5. Select **Save.**

**Setting a Ring Tone for a Contact**
You can select a unique ring tone for various contacts in your Local Directory. This helps you quickly identify callers according to the ring tones.

**Procedure**

1. Select **Directory (Dir)** or navigate to **Menu > Directory > Local Directory.**
2. Select the desired contact group or **All Contacts.**
3. Highlight the desired contact, and select **Option > Detail.**
4. Select the desired ring tone from the **Ring** field.
   - If **Auto** is selected, the contact uses the ring tone according to the default priority.
5. Select **Save.**

**Disabling the Key Tone**
If you disable the key tone, the phone will not produce a sound when pressing the keypad keys.

**Procedure**

1. Navigate to **Menu > Settings > Basic Settings > Sound > Key Tone.**
   - On the T29G phones, navigate to **Menu > Basic > Sound > Key Tone.**
2. Select **Disabled** from the **Key Tone** field.
3. Select **Save.**
Optional Accessories with Your Phone

The phone can use optional accessories when you need to extend your phone’s capabilities.

The following optional accessories need to be purchased separately if required for your phone:

- Headset YHS33/UH33
- Wireless Headset Adapter EHS36/EHS40
- Bluetooth USB Dongle BT40/BT41
- Wi-Fi USB Dongle WF40/WF50
- Expansion Module EXP20

Check with your system administrator to find out which of these applications or accessories are available on your phone.

Caution

We recommend that you use the accessories provided or approved by Yealink. The use of unapproved third-party accessories may result in poor performance.

Topics

- Headset
- Bluetooth
- Wireless Network
- Expansion Module and Your Phone

Headset

The phone supports wired or wireless headset, USB headset and Bluetooth headset to place and answer calls.

Not all phones support all types of the headsets, different headset have different supported phone models.

<table>
<thead>
<tr>
<th>Handset</th>
<th>Supported Phone Models</th>
</tr>

<td>T29G/T27G phones</td>
</tr>
<tr>
<td>Wireless Headset</td>
<td>All phones</td>
</tr>
</tbody>
</table>

You can use only one headset at a time. The headset is used according to the priority: USB headset/Bluetooth headset>YHS33/UH33/wireless headset.

Note

Your system administrator can disable the headset feature. Check with your system administrator to find out if it is available on your phone.

Topics

- Connecting the Analog Headset
- Wireless Headset
- Bluetooth Headset
- USB Headset
- Using Headsets
Connecting the Analog Headset
If you want to use an analog headset, you require an optional headset YHS33/UH33.

Procedure
1. Simply insert the headset connector into the headset port on the back of your IP phone.

Wireless Headset
You can use most wireless headsets with your phone.

EHS36/EHS40 provides the technical interface between your phone and an EHS-compatible wireless headset, such as Sennheiser/Jabra (GN Netcom) or Plantronics headset. After the EHS36/EHS40 and your headset are connected successfully, you can handle calls by your headset.

For more information on how to connect EHS36/EHS40, see the EHS36 User Guide/EHS40 User Guide on Yealink Technical Support page. For more information on how to use your headset, see your headset documentation from the manufacturer.

Bluetooth Headset
You can use a Bluetooth headset to handle calls on the T29G/T27G phones.

For more information, refer to the documentation from your Bluetooth headset manufacturer.

Related Topics
Pairing and Connecting the Bluetooth Headset
Deleting the Paired Bluetooth Device
Disconnecting the Bluetooth Device
Connecting the Analog Headset

USB Headset
You can use a USB headset to handle calls on the T29G/T27G phones.

For the information on how to connect a USB headset, see the Quick Start Guide for your phone on Yealink Support.

For a list of supported USB headsets, refer to Tested headset list compatible with Yealink IP Phone for your IP phones on Yealink Support. USB headsets that are not listed may not function properly if you connect them to your phone.

For more information on how to use your USB headset, refer to the related documentation from the manufacturer.

Using Headsets
After connecting a headset to your phone, you can activate the headset mode and use the headset when answering and placing calls. If you do not want to use a headset to handle calls, you can deactivate the headset mode.

Procedure
1. Press the HEADSET key on the phone.
   The headset icon appears on the phone screen.
2. Press the HEADSET key again on the phone.
   The headset icon disappears from the phone screen.

Note
You can initiate or end calls by pressing the HEADSET key. Check with your system administrator to find out if it is available on your phone.

Syncing the Mobile Contacts to the Phone
Viewing the Bluetooth Device Information
Editing Device Name of Your Phone
Deleting the Paired Bluetooth Device
Disconnecting the Bluetooth Device
Deactivating the Bluetooth Mode

Activating the Bluetooth Mode
You should activate the Bluetooth mode first when you need to connect the Bluetooth device to your phone.

Procedure
1. Insert the Bluetooth USB dongle into the USB port on the back of the phone.
   The phone prompts you whether to scan the Bluetooth devices right now.
2. Select OK.
3. Select On from the Bluetooth field.
4. Select Save.
   The phone scans the available Bluetooth devices automatically.

Pairing and Connecting the Bluetooth Headset
When you need the Bluetooth headset to handle calls, you should pair and connect it to your phone in advance.

Before You Begin
Make sure that the Bluetooth headset is discoverable.

Procedure
1. Navigate to Menu > Settings > Basic Settings > Bluetooth.
   On the T29G phones, navigate to Menu > Basic > Bluetooth.
2. Select Scan to search the Bluetooth devices.
   The phone proceeds to scan the local Bluetooth devices, and phone screen displays the available Bluetooth devices.
3. Find your Bluetooth headset, and select Connect.
   
   The Bluetooth icon appears on the phone screen.

**Related Topic**

**Activating the Bluetooth Mode**

**Pairing and Connecting the Bluetooth-enabled Mobile Phone**

After pairing and connecting the Bluetooth-enabled mobile phone, you can use the sync feature.

**Before You Begin**

Make sure that the Bluetooth-enabled mobile phone is discoverable.

**Procedure**

2. Select Scan to search for the Bluetooth-enabled mobile phone.
3. Find your Bluetooth-enabled mobile phone, and then select Connect.

   The phone will prompt the connection passkey on the phone screen.
4. Make sure your mobile phone is showing the same passkey, and then select OK on both mobile phone and phone.
5. (Optional.) Select OK to enable the mobile contacts sync feature, or select Cancel to disable mobile contacts sync feature.

**Note**

If you enable mobile contacts sync feature, you also need to authorize the phone to sync the contacts temporarily on the mobile phone.

**Related Topics**

**Disabling the Mobile Contacts Sync Feature**
Enabling the Mobile Contacts Sync Feature

To sync the mobile contacts to the phone, you should enable the sync feature in advance.

Before You Begin

Make sure that the Bluetooth-enabled mobile phone is paired and connected to your phone.

Procedure

1. Navigate to Menu > Settings > Basic Settings > Bluetooth > Paired Bluetooth Device.
   On the T29G phones, navigate to Menu > Basic > Bluetooth > Paired Bluetooth Device.
2. Select Option > Detail.
3. Select On from the Mobile Contacts Sync field.
   You need to authorize the phone to synchronize the contacts temporarily on the mobile phone first, and then the mobile contacts directory will appear in the phone directory list.

Viewing Your Mobile Contacts on the Phones

You can view a list of mobile contacts on the phone.

Before You Begin

Make sure that the mobile contact sync feature is enabled.

Procedure

   The contacts stored in your mobile phone will display in the Mobile Contacts list.

Related Topic

Enabling the Mobile Contacts Sync Feature

Disabling the Mobile Contacts Sync Feature

When you no longer view and use the mobile contacts on the phone, you can disable the sync feature.

Procedure

1. Navigate to Menu > Settings > Basic Settings > Bluetooth > Paired Bluetooth Device.
   On the T29G phones, navigate to Menu > Basic > Bluetooth > Paired Bluetooth Device.
2. Select Option > Detail.
3. Select Off from the Mobile Contacts Sync field.
   The mobile contacts directory disappears from the phone directory list.

Tip

The mobile contacts directory also disappears from the phone directory list after deactivating the Bluetooth mode.

Editing Device Name of Your Phone
You can edit the device name of your phone for easily recognizable.

Before You Begin
Make sure that the Bluetooth mode is activated.

Procedure
2. Enter the desired name in the Device Name field.
3. Select Save.

Related Topic
Activating the Bluetooth Mode

Deleting the Paired Bluetooth Device
You can delete the Bluetooth device paired from your phone, the next time you activate the Bluetooth mode, the phone will not automatically connect to this device.

Procedure
2. Select Option > Delete. The phone prompts you whether to delete the device.
3. Select OK.
**Disconnecting the Bluetooth Device**
You can disconnect your Bluetooth device from your phone. When you disconnect a Bluetooth device, it remains paired and you can reconnect it to your phone.

**Procedure**
1. Navigate to **Menu > Settings > Basic Settings > Bluetooth > Paired Bluetooth Device.**
   
   On the T29G phones, navigate to **Menu > Basic > Bluetooth > Paired Bluetooth Device.**
2. Highlight the connected Bluetooth device and select **Disconnect.**

   **Tip**
   You can quickly disconnect your Bluetooth headset by turning your headset off.

**Deactivating the Bluetooth Mode**
After you deactivate the Bluetooth mode, the Bluetooth device will disconnect from your phone, but it remains paired and you can reconnect it to your phone.

**Procedure**
1. Navigate to **Menu > Settings > Basic Settings > Bluetooth.**

   On the T29G phones, navigate to **Menu > Basic > Bluetooth.**
2. Select **Off** from the **Bluetooth** field.
3. Select **Save.**

**Wireless Network**
You can connect the T29G/T27G phones to a wireless network if Wi-Fi is available within the area. For more information, contact your system administrator.

**Activating the Wi-Fi Mode**
You can activate the Wi-Fi mode to connect your phone to an available wireless network.

**Procedure**
1. Insert the Wi-Fi USB dongle into the USB port on the back of the phone.
   
   The phone prompts you whether to scan the Wi-Fi devices right now.
2. Select **OK.**
3. Select **On** from the **Wi-Fi** field.
4. Select **Save.**

   The phone scans the available wireless networks in your area.
Connecting to the Wireless Network

After you have activated the Wi-Fi mode, you can connect the phone to the wireless network.

Topics

Connecting to an Available Wireless Network Manually

When you enable the Wi-Fi mode, the phone automatically connects to the saved wireless network, you can also connect it manually.

Before You Begin

Get the password of the wireless network from your system administrator. Make sure that the Wi-Fi mode is activated.

Procedure

1. Navigate to Menu > Settings > Basic Settings > Wi-Fi
   On the T29G phones, navigate to Menu > Basic > Wi-Fi
2. Highlight the X Available Network(s) (X represents the number of available networks), and select Enter.
3. (Optional.) To research the available network, select Scan.
4. Highlight the desired wireless network and select Connect.
5. If the network is secure, enter its password.
6. Select OK.

Connecting to the Wireless Network Using WPS

The Wi-Fi protected setup (WPS) provides simplified mechanisms to configure secure wireless networks which can automatically configure a wireless network with a network name (SSID) and strong WPA data encryption and authentication.

There are two supported methods in the Wi-Fi protected setup:

- **Push Button Configuration (PBC):** The user simply has to press the WPS key on both the phone and gateway/router to connect.
- **Personal Identification Number (PIN):** The user enters the PIN generated randomly by the phone on the gateway/router to connect.

Before You Begin

Make sure that the Wi-Fi mode is activated.

Procedure

1. Navigate to Menu > Settings > Basic Settings > Wi-Fi
   On the T29G phones, navigate to Menu > Basic > Wi-Fi
2. Do one of the following:
   - Select WPS > WPS to use the PBC method, then long press the WPS key on your gateway or router.
     
     *Once the WPS setup has completed successfully, the phone screen will prompt “Connect Success.”.*
Optional Accessories with Your Phone

- Select WPS > WPS-PIN to use the PIN method, then log into your gateway or router’s web interface, and configure it to search the clients. For more information, refer to the documentation from the gateway or router manufacturer.

Once WPS-PIN setup has completed successfully, the web interface of the gateway or router will prompt the connection is successful.

Adding a Wireless Network Manually
If SSID broadcast on your gateway or router is disabled, the wireless network might not appear in the scanning results. In that case, you must manually add a wireless network.

The phone can store up to 5 connected wireless networks.

Before You Begin
Get the available wireless network information from your system administrator. Make sure that the Wi-Fi mode is activated.

Procedure
1. Navigate to Menu > Settings > Basic Settings > Wi-Fi
   On the T29G phones, navigate to Menu > Basic > Wi-Fi
2. Highlight Known Network(s), and select Add.
3. Do the following:
   - If you select None or WEP from the Security Mode field, enter the desired values in the corresponding fields.
   - If you select WPA-PSK, WPA2-PSK, WPA-EAP or WPA2-EAP from the Security Mode field, select the desired cipher type first and enter the desired values in the corresponding fields.
4. Select Save.
   The connected wireless networks will be saved to the Known Network(s) list.

Related Topic
Activating the Wi-Fi Mode

Viewing the Wireless Network Information
You can view the wireless network information (for example, Profile Name, SSID or Signal Strength) when the Wi-Fi mode is activated.

Procedure
1. Navigate to Menu > Settings > Basic Settings > Wi-Fi > X Available Network(s) (X represents the number of available networks).
   On the T29G phones, navigate to Menu > Basic > Wi-Fi > X Available Network(s).
2. Select Detail to view the detailed wireless network information.
   If the phone is connected to a wireless network successfully, you can also navigate to Menu > Settings > Basic Settings > Wi-Fi > Wi-Fi Status to view the connected wireless network information.
Managing the Saved Wireless Network

You can edit, reorder and delete the saved wireless network.

Once the phone has been connected to a wireless network successfully, this wireless network profile will be saved in Known Network(s) list. Next time you activate Wi-Fi mode, the phone will be automatically connected to the wireless network which has the highest priority (the top one).

Up to 5 wireless network profiles can be saved in Known Network(s) list. If you want to add a new one when the phone has already saved 5 wireless network profiles, delete an older one before adding.

Procedure

1. Navigate to Menu > Settings > Basic Settings > Wi-Fi > Known Network(s).
2. Select Option.
3. Do one of the following:
   - Select Edit to edit the wireless network profile, and select Save.
   - Select Move Up or Move Down to change the priority of the wireless network.
   - Select Delete or Delete All to delete the saved wireless network profile.

Disconnecting the Wireless Network Connection

When you no longer want to connect to the current wireless network, you can disconnect it.

Procedure

1. Navigate to Menu > Settings > Basic Settings > Wi-Fi
2. Select X Available Network(s) (X represents the number of available networks).
3. Highlight the connected wireless network, and select Disconnect.

Tip

You can also disconnect the wireless network when deactivating the Wi-Fi mode.

Related Topic

Deactivating the Wi-Fi Mode

Deactivating the Wi-Fi Mode

You should deactivate the Wi-Fi mode when you need to connect your phone to the wired network.

Procedure
1. Navigate to **Menu > Settings > Basic Settings > Wi-Fi**
   
   On the T29G phones, navigate to **Menu > Basic > Wi-Fi**

2. Select **Off** from the **Wi-Fi** field.

3. Select **Save**.

### Expansion Module and Your Phone

The expansion module EXP20 is a console you can use to connect to a phone to add additional Ext keys and expand the functions of your phone. Only T29G/T27G phone supports it.

For more information on expansion module EXP20, refer to the LCD Expansion Module EXP20 user guide on Yealink Technical Support page.

### Topics

- Connecting the Expansion Module
- Assigning the Features for Ext Keys
- Adjusting the Contrast of the Expansion Module
- Adjusting the Backlight of the Expansion Module

### Connecting the Expansion Module

You can connect the expansion module to your phone, using the supplied materials in the expansion module’s packaging.

**Procedure**

1. Connect the expansion module to the phone using the connecting sheet and screws.

2. Connect the supplied cord from the Ext jack on the host phone to the Ext in jack on the expansion module.

For more detailed information about how to connect the expansion module, refer to the LCD Expansion Module quick start guide on the Yealink Technical Support page.

### Assigning the Features for Ext Keys

You can customize features for Ext keys on the connected phone.

**Procedure**

1. Long press the desired Ext key on the expansion module.

   *The phone screen will enter the user setting interface of this key.*

2. Customize the specific feature for this key on the phone.

3. Select **Save**.

### Adjusting the Contrast of the Expansion Module

You can configure the contrast of the expansion module via the host phone to make it easier to read.

**Procedure**

1. Navigate to **Menu > Settings > Basic Settings > Display > Contrast**.

   On the T29G phones, navigate to **Menu > Basic > Display > Contrast**.

2. Select the desired value between 1 and 10 (highest intensity) from the **Contrast** field.

3. Select **Save**.
Adjusting the Backlight of the Expansion Module

When you change the backlight intensity settings on your T29G/T27G phones, the backlight on expansion module connected to your phone automatically changes to match the new settings.

Warnings

When some issues occur on your phone, on the T27G/T23P/T23G/T21(P) E2/T19(P) E2 phones, a warning icon appears in the status bar.

The following lists the detailed situations:

- The default password is being used
- Failed to register the account
- Provisioning credentials are wrong
- Network is unavailable

Changing the Administrator Password

Investigating Warnings

The warning icon lets you know that your phone has one or more important issues. You can view details about warnings on the Status screen.

Procedure

1. Navigate to Menu > Status.
2. Select Warnings.

The Warnings screen is displayed listing any issues.

Tip

You can also press the OK key when the phone is idle, and then select Warnings.

Re-provisioning Your Phone

When the provisioning credentials are wrong, you need to ask your system administrator for the valid provisioning credentials to re-provision your phone.
Procedure
1. Navigate to Menu > Status > Warnings.
2. Select Auto-p credentials failed > Re Provision.
3. Enter valid provisioning credentials, and select Save.
   The phone prompts you whether to provision now.
4. Select OK.

Clearing Warnings
You can temporarily remove the warning icon from the status bar.
However, the warning icon appears again after the phone reboots or the phone has a new warning if the issue is not solved.

Procedure
1. Navigate to Menu > Status > Warnings.
2. Select Clear Icon.

Diagnosing the Network
When network problems occur on your phone, you can use the "ping" or "trace route" method to troubleshoot network connectivity problems.

Procedure
1. Navigate to Menu > Features > Diagnostics > Network.
2. Do one of the following:
   - Select Ping, then enter the desired IP address or URL in the Ping IP or URL field.
   - Select Trace Route, then enter the desired IP address or URL in the Trace Route IP or URL field.
3. Select Start.
   The screen displays the network status information.

Rebooting Your Phone
The improper operation may cause malfunction. If the malfunction occurs, your system administrator may ask you to reboot your phone.

Procedure
1. Navigate to Menu > Settings > Basic Settings > Reboot.
   On the T29G phones, navigate to Menu > Basic > Reboot.
   The phone prompts you whether to reboot the phone.
2. Select OK.

Tip
You can also long press the Cancel key on the keypad when the phone is idle to reboot the phone.

Resetting to Factory Settings
When some issues occur on your phone and you have tried all troubleshooting suggestions but still do not solve the problem, you can reset your phone to factory configurations.
Maintaining Your Phone

This operation will delete all your personal configuration settings, and reset all settings to the factory defaults. Check with your system administrator if the personalized settings are kept before resetting your phone to factory settings.

Procedure

1. Navigate to **Menu > Settings > Advanced Settings** (default password: admin) > **Reset Config**. On the T29G phones, navigate to **Menu > Advanced** (default password: admin) > **Reset Config**.

2. Select **Reset to Factory Settings > Reset**.

3. Select **OK**.

   The phone begins resetting.

Tip

You can also long press the OK key when the phone is idle.

*After reset, the screen prompts “Welcome Initializing...Please wait”.*

![Welcome Initializing...Please wait](image)

The phone will be reset successfully after startup.

Note

Reset of your phone may take a few minutes. Do not power off until the phone has started up successfully.

Updating the Phone Configuration

Your system administrator may ask you to update the configuration for your phone to apply any changes to system settings, which you can do without restarting it.

Procedure

1. Navigate to **Menu > Settings > Basic Settings > Update Configuration**. On the T29G phones, navigate to **Menu > Basic > Update Configuration**.

   A message is displayed on the phone screen:

   ![Basic Settings](image)

2. Select **OK**.
Tip
You can also long press the RD key when the phone is idle to update the phone configuration.

Clearing User's Personalized Configuration Settings
You can clear the personalized configuration settings manually on the phone.

Before You Begin
Your system administrator has enabled the phone to keep the user’s personalized settings after auto provisioning.

Procedure
1. Navigate to Menu > Settings > Basic Settings > Reset local settings.
   The phone prompts you whether to reset the local settings.
2. Select OK.
