Company Portal

Microsoft Intune helps organizations manage and access to corporate apps, data, and resources. Company Portal is the app that lets you, as an employee of your company, securely access those resources. Before you can use this app, make sure your IT admin has set up your work account and have a subscription to Microsoft Intune.

Company Portal helps simplify the tasks you need to do for the work:
• Enroll your device to access the corporate resources, including Office, email, and OneDrive for Business
• Sign in to the corporate resources with company-issued certificates
• Reduce frequency you need to sign in to the corporate resources with single sign-on
• Browse and install approved business apps from your IT department or the Microsoft Store for Business
• View and manage your enrolled devices and wipe them if they get lost or stolen
• Get help directly from your IT department through available contact information
Note:
Different organizations have different access requirements, and they will use Intune in ways that it determines what is the best to manage their information. Some functionality might be unavailable in certain countries. If you have questions about how this app is being used within your organization, contact your company’s IT administrator.
