Quick Start Guide (V81.90)
Packaging Contents

The following items are included in your package. If you find anything missing, contact your system administrator.

IP Phone
Handset
Stand
Power Adapter (Optional)
Ethernet Cable (1.5m CAT5E UTP Cable)
Quick Start Guide

Note: The models displayed on the phone differ from each other. The packaging content "IP Phone" listed above takes a SIP-T19P E2 IP phone as an example. We recommend that you use the accessories provided or approved by Yealink. The use of unapproved third-party accessories may result in reduced performance.

Assembling the Phone

1. Attach and detach the stand, as shown below:
   a) Attach the stand:

   Desk Mount Method

   Wall Mount Method

Note: The hookswitch tab has a lip which allows the handset to stay on-hook when the IP phone is mounted vertically.
2. Connect the handset and optional headset, as shown below:

Note: The headset should be purchased separately.

3. Connect the network and power, as shown below:

You have two options for network and power connections. Your system administrator will advise you which one to use.

Note: The IP phone should be used with Yealink original power adapter (5V/600mA) only. The use of the third-party power adapter may cause the damage to the phone. If you are connecting a PC to your phone, we recommend that you use the Ethernet cable provided by Yealink. If inline power (PoE) is provided, you don’t need to connect the power adapter. Make sure the hub-switch is PoE-compliant. PoE is only applicable to the SIP-T19P E2 IP phone.
Startup

After the IP phone is connected to the network and supplied with power, it automatically begins the initialization process. After startup, the phone is ready for use. You can configure the phone via web user interface or phone user interface.

Configuring Your Phone

Configuring via web user interface

Accessing the web user interface:

1. Press the ✔ key when the phone is idle to obtain the IP address of the phone.
2. Open a web browser on your computer, enter the IP address into the address bar (e.g., "http://192.168.0.10" or "192.168.0.10"), and then press the Enter.
3. Enter the user name (default: admin) and password (default: admin) in the login page and click Confirm.

Network Settings: Click on Network->Basic->IPv4 Config

You can configure the network settings in the following ways:

DHCP: By default, the phone attempts to contact a DHCP server in your network to obtain its valid network settings, e.g., IP address, subnet mask, gateway address and DNS address.
Static IP Address: If the phone cannot contact a DHCP server for any reason, you need to configure the IP address, subnet mask, gateway address, primary DNS address and secondary DNS address for the phone manually.

Note: The IP phone also supports IPv6, but IPv6 is disabled by default. The wrong network settings may result in inaccessibility of the phone and may have an impact on the network performance. Contact your system administrator for more information.

Account Settings: Click on Account->Register

Parameters of the account:

Register Status: It shows the register status of the current account.
Line Active: You can select Enabled/Disabled to enable/disable the account.
Label: It is shown on the LCD screen to identify the account.
Display Name: It is shown as Caller ID when placing a call.
Register Name: It is an authenticated ID for authentication provided by ITSP (required).
User Name: It is provided by ITSP for registration (required).
Password: It is provided by ITSP for registration (required).
Server Host: It is provided by ITSP for registration (required).

Register status icons on the LCD screen:

Registered
Registering
Register Failed

Note: Check with your system administrator if any error appears during the registration process or a specific configuration is required for your registration.

Configuring via phone user interface

Network Settings:

Press the Menu soft key when the phone is idle, select Settings->Advanced Settings (default password: admin)->Network->WAN Port/VLAN/Web Server/802.1x/VPN/LLDP/CDP/NAT to configure the network.
Account Settings:

Press the Menu soft key when the phone is idle, select Settings -> Advanced Settings (default password: admin) -> Accounts to configure the account.

Note: For more information on account parameters, refer to Configuring via web user interface above.

Basic Call Features

Placing a Call
Using the handset:
1. Pick up the handset.
2. Enter the number, and then press the Send soft key.

Using the speakerphone:
1. With the handset on-hook, press .
2. Enter the number, and then press the Send soft key.

Using the headset:
1. With the headset connected, press to activate the headset mode.
2. Enter the number, and then press the Send soft key.

Note: During a call, you can alternate between the headset, hands-free speakerphone and handset modes by pressing the Headset key, the Speakerphone key or by picking up the handset. Headset mode requires a connected headset.

Answering a Call
Using the handset:
Pick up the handset.

Using the speakerphone:
Press .

Using the headset:
Press .

Note: You can reject an incoming call by pressing the Reject soft key.

Ending a Call
Using the handset:
Hang up the handset or press the EndCall soft key.

Using the speakerphone:
Press or the EndCall soft key.

Using the headset:
Press the EndCall soft key.

Redial
- Press to enter the Placed Calls list, press or to select the desired entry, and then press or the Send soft key.
- Press twice when the phone is idle to dial out the last dialed number.
Welcome

Press the **EndCall** soft key to disconnect all parties.

**To enable call forward:**

1. Press the **Menu** soft key when the phone is idle, and then select **Features**->**Call Forward**.
2. Select the desired forward type:
   - **Always Forward**----Incoming calls are forwarded unconditionally.
   - **Busy Forward**----Incoming calls are forwarded when the phone is busy.
   - **No Answer Forward**----Incoming calls are forwarded if not answered after a period of time.
3. Enter the number you want to forward to. For **No Answer Forward**, press or to select the desired ring time to wait before forwarding from the **After Ring Time** field.
4. Press the **Save** soft key to accept the change.

**Call Transfer**

**Blind Transfer**

1. Press or the **Trans** soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to.
3. Press or the **Trans** soft key.

**Semi-Attended Transfer**

1. Press or the **Trans** soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to, and then press .
3. Press or the **Trans** soft key when you hear the ring-back tone.

**Attended Transfer**

1. Press or the **Trans** soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to, and then press .
3. Press or the **Trans** soft key when the second party answers.

**Call Forward**

**To enable call forward:**

1. Press the **Menu** soft key when the phone is idle, and then select **Features**->**Call Forward**.
2. Select the desired forward type:
   - **Always Forward**----Incoming calls are forwarded unconditionally.
   - **Busy Forward**----Incoming calls are forwarded when the phone is busy.
   - **No Answer Forward**----Incoming calls are forwarded if not answered after a period of time.
3. Enter the number you want to forward to. For **No Answer Forward**, press or to select the desired ring time to wait before forwarding from the **After Ring Time** field.
4. Press the **Save** soft key to accept the change.

**Call Conference**

1. Press the **NewCall** soft key during an active call. The call is placed on hold.
2. Enter the number of the second party, and then press the **Send** soft key.
3. Press the **Conf** soft key when the second party answers. All parties are now joined in the conference.
4. Press the **EndCall** soft key to disconnect all parties.

Note: You can split the conference call into two individual calls by pressing the **Split** soft key.
**Voice Message**
Message waiting indicator on the idle screen indicates that one or more voice messages are waiting at the message center. The power indicator LED slowly flashes yellow.

**To listen to voice messages:**
1. Press \( \text{Message} \) or the **Connect** soft key.
2. Follow the voice prompts to listen to your voice messages.

---

**Customizing Your Phone**

**Call History**
1. Press the **History** soft key when the phone is idle, press \( \text{Up} \) or \( \text{Down} \) to scroll through the list.
2. Select an entry from the list, you can do the following:
   - Press the **Send** soft key to place a call.
   - Press the **Delete** soft key to delete the entry from the list.

   If you press the **Option** soft key, you can also do the following:
   - Select **Detail** to view detailed information about the entry.
   - Select **Add to Contact** to add the entry to the local directory.
   - Select **Add to Blacklist** to add the entry to the blacklist.
   - Select **Delete All** to delete all entries from the list.

**Contact Directory**

**To add a contact:**
1. Press the **Dir** soft key when the phone is idle, and then select **All Contacts**.
2. Press the **Add** soft key to add a contact.
3. Enter a unique contact name in the **Name** field and contact numbers in the corresponding fields.
4. Press the **Add** soft key to accept the change.

**To edit a contact:**
1. Press the **Dir** soft key when the phone is idle, and then select **All Contacts**.
2. Press \( \text{Up} \) or \( \text{Down} \) to select the desired contact, press the **Option** soft key and then select **Detail** from the prompt list.
3. Edit the contact information.
4. Press the **Save** soft key to accept the change.

**To delete a contact:**
1. Press the **Dir** soft key when the phone is idle, and then select **All Contacts**.
2. Press \( \text{Up} \) or \( \text{Down} \) to select the desired contact, press the **Option** soft key and then select **Delete** from the prompt list.
3. Press the **OK** soft key when the LCD screen prompts “Delete selected item?”.

**Note:** You can add contacts from call history easily. For more information, refer to **Call History** above.

**Volume Adjustment**
- Press \( \text{Up} \) during a call to adjust the receiver volume of the handset/speakerphone/headset.
- Press \( \text{Down} \) when the phone is idle or ringing to adjust the ringer volume.

**Ring Tones**
1. Press the **Menu** soft key when the phone is idle, and then select **Settings**->**Basic Settings**->**Sound**->**Ring Tones**.
2. Press \( \text{Up} \) or \( \text{Down} \) to select **Common** or the desired account and then press the **Enter** soft key.
3. Press \( \text{Up} \) or \( \text{Down} \) to select the desired ring tone.
4. Press the **Save** soft key to accept the change.
About Yealink

Yealink (Stock Code: 300628) is a global leading unified communication (UC) terminal solution provider that primarily offers video conferencing systems and voice communication solutions. Founded in 2001, Yealink leverages its independent research and development and innovation to pursue its core mission: “Easy collaboration, high productivity.” The company’s high-quality UC terminal solutions enhance the work efficiency and competitive advantages of its customers in over 100 countries. Yealink is the world’s second-largest SIP phone provider and is number one in the China market.
