Quick Start Guide (V84.1)

SIP-T58A with camera

www.yealink.com

Applies to firmware version 58.84.0.1 or later.
Package Contents

The following items are included in your package. If you find anything missing, contact your system administrator.

Assembling the Phone

1. Insert the camera, as shown below:

Note: The camera can only be connected to the USB port on the top of the phone. And the IP phone only supports the Yealink original USB camera CAM50.

2. Attach the stand and adjust the angle of touch screen, as shown below:
3. Attach the optional wall mount bracket, as shown below:

Note: The reversible tab has a lip which allows the handset to stay on-hook when the IP phone is mounted vertically. For more information, refer to Yealink Wall Mount Quick Installation Guide for Yealink IP Phones.

4. Connect the handset and optional headset, as shown below:

Note: The headset should be purchased separately.

5. Connect the optional USB flash drive, as shown below:

Note: The USB port (on the rear of the phone) can also be used to connect color-screen expansion module EXP50, USB headset or DECT USB dongle DD10K. For more information on how to use EXP50, refer to Yealink EXP50 User Guide. For more information on how to use USB headset, refer to the documentation from the manufacturer. For more information on how to use DD10K, refer to Yealink Smart Business Phones User Guide.
6. Connect the AC power or PoE, as shown below:

![AC Power Option](image1)

![PoE (Power over Ethernet) Option](image2)

Note: The IP phone should be used with Yealink original power adapter (5V/2A) only. The use of the third-party power adapter may cause the damage to the phone.

7. Connect to the network, as shown below:

You have two options for network connection. You can select one of them according to the current office environment.

a) Connect to the wired network:

![PC Connection (Optional)](image3)

Note: If you are connecting a PC to your phone, we recommend that you use the Ethernet cable provided by Yealink.

b) Connect to the wireless network:

1) Swipe down from the top of the screen to enter the control center.
2) Tap **Settings** -> **Basic Settings** -> **Wi-Fi**.
3) Tap the **On** radio box in the **Wi-Fi** field.
   The phone will automatically search for available wireless networks in your area.
4) Select an available wireless network from the list of networks.
5) If the network is secure, enter its password in the **Password** field.
6) Tap **Connect** to connect to the wireless network.

**Startup**

After the IP phone is connected to the network and supplied with power, it automatically begins the initialization process. After startup, the phone is ready for use. You can configure the phone via web user interface or phone user interface.

**Configuring Your Phone**

**Configuring via web user interface**

**Accessing the web user interface:**

1. Swipe down from the top of the screen to enter the control center.
2. Tap **Setting** -> **Status** to obtain the IP address of the phone.
3. Open a web browser on your computer, enter the IP address into the address bar (e.g., "http://192.168.0.10" or "192.168.0.10"), and then press **Enter**.
4. Enter the user name (default: admin) and password (default: admin) in the login page and click **Login**.

**Network Settings:** Click on **Network** -> **Basic** -> **IPv4 Config**

You can configure the network settings in the following ways:

**DHCP:** By default, the phone attempts to contact a DHCP server in your network to obtain its valid network settings, e.g., IP address, subnet mask, gateway address and DNS address.

**Static IP Address:** If the phone cannot contact a DHCP server for any reason, you need to configure IP address, subnet mask, gateway address, primary DNS address and secondary DNS address for the phone manually.

Note: The IP phone also supports IPv6, but IPv6 is disabled by default. The wrong network settings may result in inaccessibility of your phone and may have an impact on the network performance. Contact your system administrator for more information.

**Account Settings:** Click on **Account** -> **Register** -> **Account X** (X=1,2,3...15,16)

**Parameters of the account:**

- **Register Status:** It shows the register status of the current account.
- **Line Active:** You can select Enabled/Disabled to enable/disable the account.
- **Label:** It is shown on the touch screen to identify the account.
- **Display Name:** It is shown as Caller ID when placing a call.
- **Register Name:** It is an authenticated ID for authentication provided by ITSP (required).
- **User Name:** It is provided by ITSP for registration (required).
- **Password:** It is provided by ITSP for registration (required).
- **Server Host:** It is provided by ITSP for registration (required).
Register status icons on the touch screen:

- (Green) Registered
- (Gray) Register Failed
- (Green and Flashing) Registering

Note: Check with your system administrator if any error appears during the registration process or a specific configuration is required for your registration.

Configuring via phone user interface

**Network Settings:**
1. Swipe down from the top of the screen to enter the control center.
2. Tap **Settings** -> **Advanced Settings** (default password: admin) -> **Network** -> **WAN Port/Wi-Fi Port/VLAN/Web Server/802.1x/VPN/LLDP/CDP/NAT** to configure the network.

**Account Settings:**
1. Swipe down from the top of the screen to enter the control center.
2. Tap **Settings** -> **Advanced Settings** (default password: admin) -> **Accounts** to configure the account.

**Using Your Phone**

**Status Icons**

The icons on the status bar of the touch screen give information about phone:

Using the Touch Screen

By default, the IP phone supports three idle screens. The home screen displays as below:

![Home Screen Interface](image)

**To navigate the touch screen:**
- Swipe left or right to switch among different idle screens.
- Tap ![Back Arrow](image) to go back to the previous screen.
- Tap ![Home Screen](image) to return to the idle screen.
- Tap ![Recently Used Applications](image) to view and manage recently used applications.

**To change the wallpaper:**
1. Long tap the empty spot on the idle screen.
2. Tap **WALLPAPERS**.
3. Select a desired picture.
4. Tap **Set wallpaper**.

**To add a widget to the idle screen:**
1. Long tap the empty spot on the idle screen.
2. Tap **WIDGETS**.
3. Drag the desired widget up/down/left/right to the destination spot on the idle screen.

**Control Center and Notification Center**

Swipe down from the top of the screen to enter the control center and the notification center.

![Control Center Interface](image)

- **Display the phone’s time and date.**
- **Control Center**
  - To turn on/off common functions quickly, capture a screenshot or go to the Settings screen, tap corresponding icons.
  - To adjust the screen brightness, drag the slider.
- **Notification Center**
  - Notification center displays the list of Notification, Missed Calls, Voice Mail and Forwarded.
  - To delete all notifications, tap ![Delete All Notifications](image).
  - To delete a specific notification, swipe left or right.
  - To view the details, tap the desired notification message.

Swipe up from the bottom of the screen to hide this screen.
Entering and Updating Data

To use onscreen keyboard:

1. Tap the input field, the onscreen keyboard will display on the touch screen:

   - Tap to backspace.
   - Label automatically to identify the context-sensitive features.
   - Tap Next to go to next field.
   - Tap Done to confirm the settings.
   - Tap Go to browse the web page.
   - Tap to switch to the uppercase input mode.
   - Tap to switch to the numeric & symbolic input mode.

   Tap to access input options to configure Input Languages or Android Keyboard Settings (AOSP).

2. When you finish entering, tap to hide the onscreen keyboard.

To use keypad:

Dial or enter number.

To select a field option:

Tap the field name, tap the desired option in the pop-up dialog box.

Basic Call Features

Placing a Video/Voice Call

Using the handset:
1. Pick up the handset.
2. Enter the number, and then tap Send.

Using the speakerphone:
1. With the handset on-hook, press .
2. Enter the number, and then tap Send.

Using the headset:
1. With the headset connected, press to activate the headset mode.
2. Enter the number, and then tap Send.

Answering a Video/Voice Call

Using the handset:
Pick up the handset.

Using the speakerphone:
Press .

Using the headset:
Press .

Controlling Video During a Call

To change the video view:
- Tap Full Screen to display the video in full screen.
- Tap to return.

To turn on/off near-site video during a call:
Swipe down from the top of the screen to enter the control center, tap Video to turn on/off the near-site video.
Ending a Video/Voice Call
Using the handset:
Hang up the handset or tap the End Call soft key.
Using the speakerphone:
Press [ ⏰] or tap the End Call soft key.
Using the headset:
Tap the End Call soft key.

Redial
- Press [ 📞] to enter the Placed Calls list, and then tap the desired entry.
- Press [ 📞] twice when the phone is idle to dial out the last dialed number.

Call Mute and Un-mute
- Press [ 🎤] to mute the microphone during a call.
- Press [ 🎤] again to un-mute the call.

Call Hold and Resume
To place a call on hold:
Press [ 📞] or tap the Hold soft key during an active call.
To resume the call, do one of the following:
- If there is only one call on hold, press [ 📞] or tap the Resume soft key.
- If there is more than one call on hold, tap the call you want to resume, and press [ 📞] or tap the Resume soft key.

Call Transfer
You can transfer a call in the following ways:
Blind Transfer
1. Press [ ✨] or tap the Transfer soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to.
3. Press [ ✨].
Semi-Attended Transfer
1. Press [ ✨] or tap the Transfer soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to, and then press [ #].
3. Press [ ✨] or tap the Transfer soft key when you hear the ring-back tone.
Attended Transfer
1. Press [ ✨] or tap the Transfer soft key during a call. The call is placed on hold.
2. Enter the number you want to transfer to, and then press [ #].
3. Press [ ✨] or tap the Transfer soft key when the second party answers.

Call Forward
To enable call forward:
1. Swipe down from the top of the screen to enter the control center.
2. Tap Settings -> Features -> Call Forward.
3. Select the desired forward type:
   - Always Forward----Incoming calls are forwarded unconditionally.
   - Busy Forward----Incoming calls are forwarded when the phone is busy.
   - No Answer Forward----Incoming calls are forwarded if not answered after a period of time.
4. Enter the number you want to forward to. For No Answer Forward, tap the After Ring Time field, and then tap the desired ring time to wait before forwarding.
5. Tap ✔ to accept the change.
Call Conference
1. Tap the Conference soft key during an active call. The call is placed on hold.
2. Enter the number of the second party, and then press # or tap Conference.
3. Tap the Conference soft key again when the second party answers. All parties are now joined in the conference.
4. Tap the End Call soft key to disconnect all parties.

Voice Message
Message waiting indicator on the idle screen indicates that one or more voice messages are waiting at the message center. The power indicator LED slowly flashes red.

To listen to voice messages: (Ensure the voice mail code is already configured on the phone.)
1. Do one of the following:
   - Press 
   - Swipe down from the top of the screen to enter the notification center, tap Voice Mail and then select the desired item.
2. Follow the voice prompts to listen to your voice messages.

Customizing Your Phone

Call History
1. Tap , and then select the desired call list on the left.
2. Drag up and down to scroll.
3. Tap  after the desired entry, and then you can do the following:
   - Tap Send to place a call.
   - Tap Add to add the entry to the local directory.
   - Tap Edit to edit the phone number of the entry before placing a call.
   - Tap Blacklist to add the entry to the blacklist.
   - Tap Delete to delete the entry from the list.

Contact Directory
To add a contact:
1. Tap , and then select the desired group on the left.
2. Tap to add a contact.
3. Enter a unique contact name in the Name field and contact numbers in the corresponding fields.
4. Tap to accept the change.

To edit a contact:
1. Tap , and then select the desired group on the left.
2. Tap after the desired contact.
3. Edit the contact information.
4. Tap ✓ to accept the change.

To delete a contact:
1. Tap , and then select the desired group on the left.
2. Tap after the desired contact and then tap Delete.
3. Tap OK when the touch screen prompts “Delete selected item?”.

Note: You can add contacts from call history easily. For more information, refer to Call History above.

Volume Adjustment
- Press during a call to adjust the receiver volume of the handset/speakerphone/headset.
- Press when the phone is idle or ringing to adjust the ringer volume.
- Press to adjust the media volume in the corresponding screen.
Regulatory Notices

Operating Ambient Temperatures
- Operating temperature: -32 to 104°F (0 to 40°C)
- Relative humidity: 5% to 90%, noncondensing
- Storage temperature: -22 to 160°F (-30 to +70°C)

Warranty
Our product warranty is limited only to the unit itself, when used normally in accordance with the operating instructions and the system environment. We are not liable for damage or loss resulting from the use of this product, or for any claim from a third party. We are not liable for problems with Yealink device arising from the use of this product; we are not liable for financial damages, lost profits, claims from third parties, etc., arising from the use of this product.

Explanation of the symbols
- DC symbol
  is the DC voltage symbol.
- WEEE Warning symbol
  To avoid the potential effects on the environment and human health as a result of the presence of hazardous substances in electrical and electronic equipment, end users of electrical and electronic equipment should understand the meaning of the crossed-out wheeled bin symbol. Do not dispose of WEEE as unsorted municipal waste and have to collect such WEEE separately.

Restriction of Hazardous Substances Directive (RoHS)
This device complies with the requirements of the EU RoHS Directive. Statements of compliance can be obtained by contacting support@yealink.com.

Safety Instructions
Save these instructions. Read these safety instructions before use!

General Requirements
- Before you install and use the device, read the safety instructions carefully and observe the situation during operation.
- During the process of storage, transportation, and operation, please always keep the device dry and clean, avoid collision and crash.
- Please attempt not to dismantle the device by yourself. In case of any discrepancy, please contact the appointed maintenance center for repair.
- Please refer to the relevant laws and statutes while using the device.
- Legal rights of others should be respected as well.

Environmental Requirements
- Place the device at a well-ventilated place. Do not expose the device under direct sunlight.
- Keep the device dry and free of dusts.
- Do not place the device on or near any inflammable or fire-vulnerable object, such as rubber-made materials.
- Keep the device away from any heat source or bare fire, such as a candle or an electric heater.

Operating Requirements
- Do not let a child operate the device without guidance.
- Do not let a child play with the device or any accessory in case of accidental swallowing.
- Please use the accessories provided or authorized by the manufacturer only.
- The power supply of the device shall meet the requirements of the input voltage of the device. Please use the provided surge protection power socket only.
- Before plugging or unplugging any cable, make sure that your hands are completely dry.
- Do not spill liquid of any kind on the product or use the equipment near water, for example, near a bathtub, washbowl, kitchen sink, wet basement or near a swimming pool.
- During a thunderstorm, stop using the device and disconnect it from the power supply.

Troubleshooting
The unit cannot supply power to Yealink device.
There is a bad connection with the plug.
1. Clean the plug with a dry cloth.
2. Connect it to another wall outlet.
- The usage environment is out of operating temperature range.
1. Use in the operating temperature range.
- The cable between the unit and the Yealink device is connected incorrectly.
1. Connect the cable correctly.
You cannot connect the cable properly.
1. You may have connected a wrong Yealink device.
2. Use the correct power supply.
- Some dust, etc., may be in the port.
1. Clean the port.
Contact your dealer or authorized service facility for any further questions.

FCC Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

IC Statement
This device complies with Industry Canada’s licence-exempt RSSs. Operation is subject to the following two conditions:
(1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

CAN ICES-3(B)
Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes:
(1) l’appareil ne doit pas produire de brouillage;
(2) l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.NMB-3(B)

Radiation Exposure Statement
This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu’aucune autre antenne ou émetteur. Cet équipement devrait être installé et actionné avec une distance minimum de 20 centimètres entre le radiateur et votre corps.
