About This Guide

Thank you for choosing Yealink CP960 Teams IP phones, which are mainly designed to work with the Microsoft Teams client. This guide provides everything you need to quickly use your new phone. Firstly, verify with your system administrator that the IP network is ready for phone configuration. Also be sure to read the Quick Start Guide in your phone package before you set up and use the phone.

- [Related Documentations](#)

Related Documentations

You can find the following types of documents from each product support page on [Yealink Support](#):

- Release Notes: This guide describes what's new for a new phone firmware.
- Quick Start Guide: This guide describes the contents of your package, how to assemble the phone or accessory, and how to use the basic features. This guide is also included in your phone package.
- Administrator Guide: This guide provides detailed information about setting up your network and configuring features.

Troubleshooting

If you are having issues with your phone, you can try the troubleshooting options and solutions in the following topics to resolve certain issues.

- [*Why is the screen blank?*](#)
- [*Why does the phone display “Network unavailable”?*](#)
- [*Why does the phone display time and date incorrectly?*](#)
- [*How can I obtain the MAC address of a phone when the phone is not powered on?*](#)
- [*Why can't I receive calls?*](#)
- [*Why doesn't my handset work?*](#)
- [*Checking the IP Address of Teams Phone*](#)

Why is the screen blank?

- Ensure that the phone is properly plugged into a functional AC outlet.
- Ensure that the phone is plugged into a socket controlled by a switch that is on.
- If the phone is plugged into a power strip, try to plug it directly into a wall outlet instead.
- If the phone is powered from PoE, ensure you use a PoE-compliant switch or hub.

Why does the phone display “Network unavailable”?

- Ensure that the switch or hub in your network is operational.
- Contact your system administrator for more information.

Why does the phone display time and date incorrectly?

Check whether your phone obtains the time and date from the SNTP server automatically. If the phone fails to connect the SNTP server, contact your system administrator for more information. You can also configure time and date manually.

How can I obtain the MAC address of a phone when the phone is not powered on?

You can use one of the following ways to obtain the MAC address of a phone:

- You can ask your supplier for shipping information sheet which includes MAC addresses according to the corresponding PO (Purchase Order).
- You can find the MAC address on the label of the carton box.
- You can also find the MAC address from the phone's bar code on the back of the phone.

Why can't I receive calls?

- Check whether your status is DND mode, if it is, you should reset status.
- Check whether call forward is enabled on the phone.

Why doesn't my headset work?

- Check that the headset cord is fully connected to the headset jack on the phone.

Checking the IP Address of Teams Phone

Procedure

Navigate to  > **Settings** > **Device Settings** > **About**.
