Yealink MVC Series Video Solution Release Notes of Version x.421.0.x

1. Introduction

- Firmware Version:

UVC50/UVC80: 92.421.0.5 upgrades to 92.421.0.10

UVC30: 105.420.0.10 upgrades to 105.421.0.5

- Applicable Models: UVC50, UVC80, UVC30
- Release Date: May 27th, 2020.

2. New Features

1. Added the feature that VCM34/CWP90 supports local mute (device mute) when Teams app/server has HID synchronization issue which causes the microphone cannot be muted from device.
2. Added the feature that UVC30 supports area exposure (basing on human face): For dim environments, the exposure is automatically adjusted according to the brightness of human face, enhancing environmental adaptability.

3. Optimization

1. Optimized Auto Framing feature that Auto Framing algorithm Integrates body detection to enhance framing accuracy, avoid keeping zoom-in and zoom-out and undetected situation where people face to camera with side face or look down.

4. Bug Fixes

None
