

The Easiest Way of Content Sharing

Combining a self-built 5G Wi-Fi, WPP20, the wireless presentation pod, partners up with Yealink MVC series room system for Microsoft Teams Room to offer high-quality wireless content sharing with just one tap. Wireless deployment helps you escape from the wiring troubles. Also, up to 4 devices can be connected at a time, providing you ultimate collaboration experience with low-latency content sharing. WPP20 works with both Windows OS PC and Mac OS PC.

Key Features and Benefits

Plug and Play, One-click Presenting

With Yealink self-built 5GHz 802.11ac Wi-Fi network and its perfect anti-interference capability, no routers or extra network configuration required, WPP20 has low dependence to the business network and makes sharing smooth and easy. WPP20 packs it with a universal USB port, plug and play, and any other additional software is unnecessary. To minimize the deploy cost, this pod is designed to let you skip messy cables and the hassle with interface adaptation, saving your time from setting-up additional wires between TV and conference table.

Low Latency, Multipoint FHD Sharing

Immediate response, smooth and trouble-free presenting, 1080P@30fps FHD and low-latency content sharing, all of these allow you to enjoy an excellent collaboration. Meanwhile, one video conferencing system can simultaneously connect up to four WPP20.

High compatibility

Yealink wireless presentation solution is compatible with both Windows and Mac operation system to meet different users' requirement.

- USB 2.0
- 5GHz 802.11ac Wi-Fi Network
- Plug and Play
- Low Latency
- 1080P30fps Full HD Content Sharing
- Buit-in Content Sharing Control Software
- Support Windows/macOS

	Resolution	Up to 1080p/30fps
Software Features	Device connections Simultaneously	Up to 4
