## **Yealink MeetingBar Series Teams Edition Release Notes of Version 133.15.0.54 (MeetingBar A20/A30) & 137.15.0.30 (CTP18)**

### **1. Introduction**

- Firmware Version:  
MeetingBar A20: 133.15.0.52 upgrades to 133.15.0.54  
MeetingBar A30: 133.15.0.52 upgrades to 133.15.0.54  
CTP18: 137.15.0.28 upgrades to 137.15.0.30
- Applicable Models: MeetingBar A20, MeetingBar A30, CTP18
- Release Date: April 7<sup>th</sup>, 2021

### **2. Feature List**

None

### **3. Optimization**

1. Optimized the calendar card on landing page.
2. Optimized the personal mode: start Microsoft Whiteboard, start recording, and enable background effects.

### **4. Bug Fixes**

1. Fixed an issue that cannot join the meeting on the touch panel when you are the first one to join the scheduled meeting.

### **5. Features Descriptions**

None

## 6. Points for Attention

1. Due to a known issue that the endpoint does not officially support the dual-screen. It will support in May.
2. Due to a known issue that App crashes in low probability when in a long meeting over 72 hours.

## **Yealink MeetingBar Series Teams Edition Release Notes of Version 133.15.0.52 (MeetingBar A20/A30) & 137.15.0.28 (CTP18)**

### **1. Introduction**

- Firmware Version:  
MeetingBar A20: 133.15.0.20 upgrades to 133.15.0.52  
MeetingBar A30: 133.15.0.52  
CTP18: 137.15.0.28
- Applicable Models: MeetingBar A20, MeetingBar A30, CTP18
- Release Date: March 19<sup>th</sup>, 2021

### **2. Feature List**

1. Supported MeetingBar A30 collaboration bar.
2. Supported CTP18 collaboration touch panel.
3. Supported using the whiteboard in the meeting.
4. Supported live captions in the meeting.
5. Supported changing the background in the meeting.

### **3. Optimization**

1. Optimized the license mechanism.
2. Optimized the interface displayed on the device.

### **4. Bug Fixes**

None

## 5. Features Descriptions

### 1. Supported using the whiteboard in the meeting.

**Description:** Whiteboard integration in Microsoft Teams meetings is powered by whiteboard for the web, which lets participants of Teams meetings collaborate together on a shared digital canvas. You can share a whiteboard to make it available to all participants in a Teams meeting.

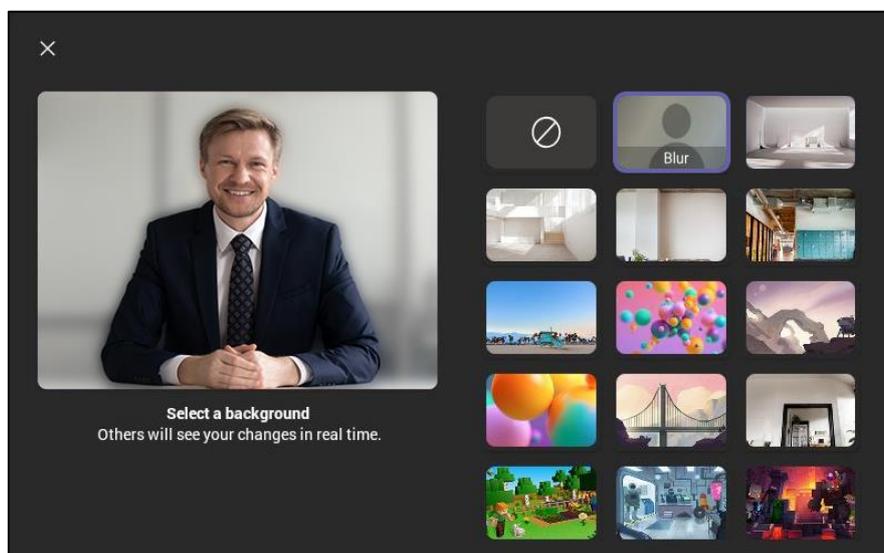

### 2. Supported live captions in the meeting.

**Description:** Live captions make the device add real-time captions to your meeting, making the video more accessible.

### 3. Supported changing the background in the meeting.

**Description:** To avoid distractions and unexpected disruptions during video meetings, the device supports the background changing feature. You can change the background picture or set it as a background blur. You can only use it in MeetingBar A20/A30.

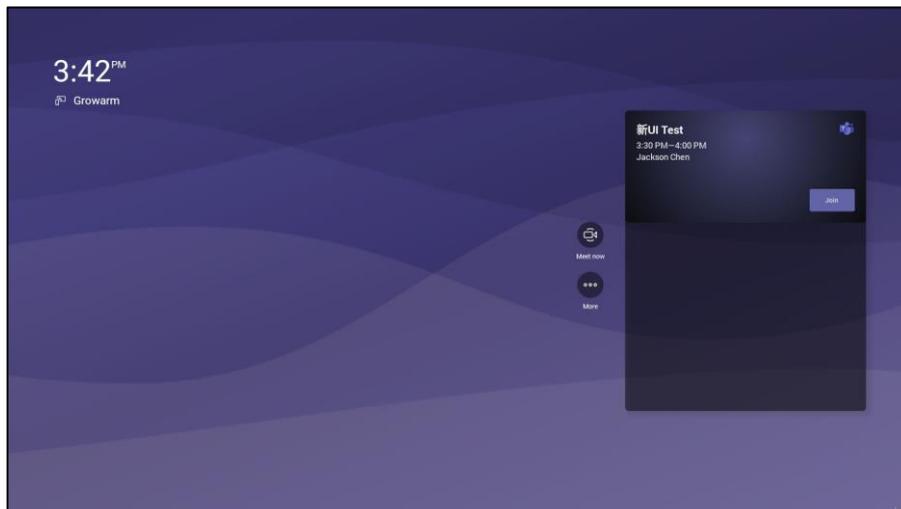

## 6. Optimization Descriptions

### 1. Optimized the license mechanism.

**Description:** You can switch between Teams and Zoom version without importing the corresponding license (For Teams firmware: 133.15.0.52 or later).

### 2. Optimized the interface displayed on the device.

**Description:** The interface is more concise, more beautiful, and more convenient.

## 7. Points for Attention

1. Due to a known issue that prompts “error: could not sign in. You will need to sign in again. If you see this message again, please contact your company support.” when signing in the touch panel side. You can try to reset to the factory to solve the issue. The issue will be solved in the next version.

2. Due to a known issue that prompts “we could not connect you to the meeting” when joining the meeting in the touch panel. The issue will be solved in the hot-fix version, which will release before the end of the month.

If the problematic touch panel is the first user to join the meeting, it will not be able to join the meeting successfully. You need other participants to join the meeting before joining the meeting normally.

3. Due to a known issue that when the touch panel is pairing, sometimes cannot receive the video signal. You can turn on/off the camera or enter the meeting again to solve this issue.
