## Yealink USB Connect Release Notes of Version 32

### 0.32.85.0

#### 1. Introduction

- Firmware Version:

Yealink USB Connect: 0.32.85.0 for Windows

Yealink USB Connect: 0.32.85.0 for MAC (macOS running on Intel chip, not Apple M1 chip)

- Applicable Models: CP900, CP700, UH36, BT50, UVC30, UH33 E2, UVC40, UH34, UVC20, WH62, WH63, WH66, WH67, MP50
- Release Date: May 10<sup>th</sup>, 2021.

#### 2. Feature List

None

#### 3. Optimization

None

#### 4. Bug Fixes

1. Fixed an issue that Yealink USB Connect could not recognize Bria Enterprise, Bria 5, and Bria softphones. You can choose Yealink headset/speakerphone as Bria's audio device and perform call control.

## Yealink USB Connect Release Notes of Version 32

### 0.32.80.0

#### 1. Introduction

- Firmware Version:

Yealink USB Connect: 0.32.80.0 for Windows

Yealink USB Connect: 0.32.80.0 for MAC (macOS running on Intel chip, not Apple M1 chip)

- Applicable Models: CP900, CP700, UH36, BT50, UVC30, UH33 E2, UVC40, UH34, UVC20, WH62, WH63, WH66, WH67, MP50
- Release Date: Mar 3<sup>th</sup>, 2021.

#### 2. Feature List

1. Added support for the new hardware version UVC40.
2. Supported WH6X DECT wireless headsets of the V20 version. For example, the Mute reminder configuration value has been modified according to the silence detection.

#### 3. Optimization

1. Optimized the upgrade rules for CP700 and CP900 devices.

#### 4. Bug Fixes

1. Fixed an issue that YMCS may fail to export the software log.
2. Fixed an issue that the prompt of the pop-up box is incorrect when exporting the log.
3. Fixed an issue that as the conflict between Yealink USB Connect and Yealink UME, the image configuration parameters are incorrect on the UVC series devices.

## Yealink USB Connect Release Notes of Version 32

### 0.32.69.0

#### 1. Introduction

- Firmware Version:  
Yealink USB Connect: 0.32.69.0 for Windows  
Yealink USB Connect: 0.32.69.0 for MAC
- Applicable Models: CP900, CP700, UH36, BT50, UVC30, UH33 E2, UVC40
- Release Date: Dec 27<sup>th</sup>, 2020.

#### 2. Feature List

1. Supported new device models, including UH33 E2, UVC40.
2. Supported changing the field of view for UVC30, the adjustable angles are: 70°, 90°, and 120°.
3. Supported synchronizing the time on USB device (should support this feature) with the time on PC every 1 minute.
4. Provided API for integrating with the third-party softphone (Counterpath\_Bria, Broadsoft UC One, Avaya).
5. Supported the feature when there are multiple softphones on PC, you can set the softphone to be woken up by the headset first.
6. Supported the local ringtone feature for YHC20 (UH36).
7. Added "About"  button, including **Check for updates** and **Feedback**.
8. Added a pop-up window when closing the software during firmware upgrade.
9. Supported uploading a screenshot in \*.jpeg or \*.jpe format when giving feedback.
10. Added the "Update more devices" button on the update device page when connecting multiple devices of the same model.
11. Supported automatic updates and prompts for the enhanced versions of security and stability.

12. Supported restrictions on downgrading UVC30/UVC40, and prohibit users from downgrading some models to an older version.

### 3. Optimization

1. Optimized the UI interface:
  - a) Replaced the original client logo on the “Update device” page with the corresponding device picture.
  - b) The translations of the audio collection button are optimized to **Start** and **Stop**.
  - c) Added **Device Settings** module, which only appears for devices that support this configuration.
2. Improved the detection speed when multiple devices of the same model are connected.
3. Optimized the experience and stability for upgrading devices.

### 4. Bug Fixes

1. Fixed an issue that when USB device connects to software, the device type reported to YMCS/YDMP will be incorrect.
2. Fixed an issue that the device may crash in some scenarios.

## Yealink USB Connect Release Notes of Version

### 0.3.36.0 for MAC

#### 1. Introduction

- Firmware Version:  
Yealink USB Connect: 0.3.36.0 for MAC
- Applicable Models: CP900, CP700, UH36, BT50, YHC20
- Release Date: June 8<sup>th</sup>, 2020.

#### 2. Feature List

1. Support BT50 firmware upgrade.  
After the upgrade, BT50 cannot be downgraded to an earlier firmware version.

#### 3. Optimization

None

#### 4. Bug Fixes

None

# Yealink USB Connect Release Notes of Version 0.3.36.0 for Windows & 0.3.13.0 for MAC

## 1. Introduction

- Firmware Version:  
Yealink USB Connect: 0.3.36.0 for Windows  
Yealink USB Connect: 0.3.13.0 for MAC
- Applicable Models: CP900, CP700, UH36, BT50, YHC20
- Release Date: April 19<sup>th</sup>, 2020.

## 2. Feature List
